NONSTANDARD/ SOVIET BLOCK

CLEANING KITS

When conditions are subpar, deposits and fouling can build-up in your rifle in a hurry. Keep your rifle clean and clear with this compact and lightweight cleaning system. Even hard to reach areas, like the chamber, are quick and easy to clean with the flex adapter. Simply attach one end to the female rod and the other to the chamber brush so it can flex into the chamber for cleaning. Be sure to use the obstruction remover and t-handle for a better grip. Available in four variations: 5.45 x 39mm, 7.62 x 39mm, 5.56 x 45mm, and 7.62 x 51mm.

- 30" Memory-Flex® cable for effective and correct Breech-to-Muzzle® cleaning
- Bronze bore brush, specific to each system, removes deposits and other fouling
- Features a flex adapter and custom chamber brush, specific to each system, for proper chamber cleaning
- Obstruction removal tools for jammed cases and other blockages
- Blue Nylon and Bronze AP Brushes for more aggressive cleaning

BIG BORE

CLEANING EQUIPMENT

The Otis Big Bore Cleaning Equipment is designed to clean and maintain artillery, mobile artillery pieces and main gun of tanks. The swab/brush combo cleans from Breech-to-Muzzle® and decreases the amount of personnel needed to clean the weapon platform. The swab section features a sock over an expanding disc system that, when compressed, expands to fit the bore for a more effective clean. Available in 105mm, 120mm or 155mm configurations.

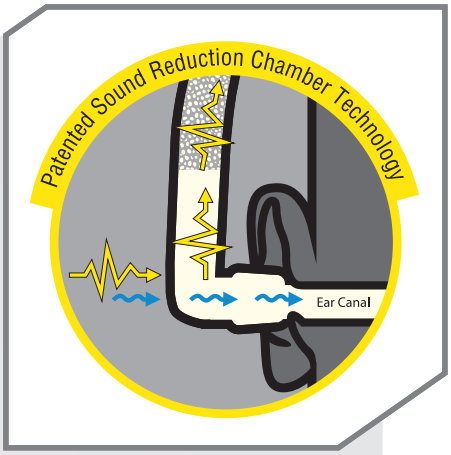
HEARING PROTECTION

EARSHIELD

Otis Technology presents a smarter way to protect your hearing while improving your response to range commands and other communication. Soft earbuds form a seal around the outer ear canal and connect to the unique sound reduction chambers. Because sound energy travels the path of least resistance, high-intensity sounds, like gunfire, funnel into the wider sound reduction chambers and away from your narrow ear canals. The chamber dampens, refracts and cancels harmful waves to produce a safe volume across all frequencies. So, you can hear important safety signals or conversations without removing the Ear Shield.



- Eliminates stock interference
- Cool and comfortable
- No batteries required
- Lightweight and collapsible
- Adjustible to fit any shooter

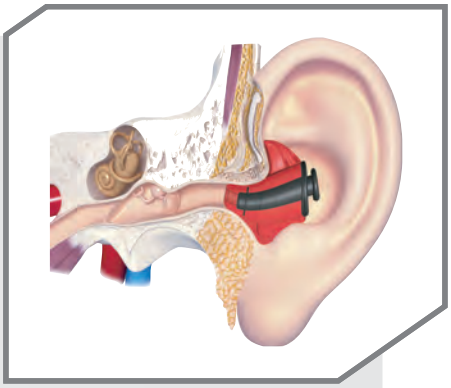
Ear Shield 26 dB	FG-ESH-26
Ear Shield 31 dB	FG-ESH-31
Ear Shield Replacement Cuffs - 4	FG-ESH-C

FLUGZ

Form. Fit. Finished.

When you form and fit FLUGZ to your ear canals, you'll discover they simply fit better than anything you've tried before. FLUGZ come housed and sealed in their own clear container which functions as a steamer during the fitting process. Inside, uniquely engineered left and right FLUGZ are ready to be molded to your ear canal.



FLUGZ are rated NRR-21 and are right in line with expensive earmuffs protecting you from percussion impact, yet they do not block your ability to hear low frequency sounds.
