RAMPART
WE EQUIP YOUR MISSION

**CANADA'S LEADING SUPPLIER
OF OPERATIONAL EQUIPMENT**

WE EQUIP YOUR MISSION

Rampart is Canada's leading single source provider of **operational equipment**. We offer access to the largest selection of products and brands, world-class subject matter experts, and industry-leading customer service.

EQUIPMENT SOLUTIONS

Our experts are committed to serving the end-user with the world's best products.

If you're unsure of what you need, our experts work with you to find the right solution.

CUSTOMER SERVICE

Our top priority is to provide the highest level of customer service.

Our team is dedicated to providing on time, on budget, on target solutions.

SUBJECT MATTER EXPERTISE

We have subject matter experts who can help and assist every step of the way.

From initial request, to post-contract delivery, warranty, repair and anything else that might come up.

WHO WE SERVE

- ✓ **Military** *All branches*
- ✓ **Police** *Federal, provincial and municipal*
- ✓ **Corrections**

PRESIDENT'S LETTER

Over the past 55 years, The Safariland Group has been developing innovative protective gear and equipment that has contributed to saving over 2035 lives. We honor those who have experienced a life-threatening incident, and welcome them to the SAVES CLUB®.

We are incredibly proud of these heroes. These officers – who were able to go home to their families and communities afterwards – represent all that we do at Safariland. Our mission is “Together, We Save Lives” and our goal is to provide the most technologically advanced protective equipment to those who put themselves on the line, day in and day out.

Looking ahead, we recognize The Safariland Group is in a unique position with our many brands to forge new paths by integrating performance products and solutions to improve officer safety. Through integration, innovation and the constant pursuit of perfection, we intend to empower, equip and protect every law enforcement officer with the best protective products on the planet.

Sincerely,

SCOTT O'BRIEN
PRESIDENT

CONCEAL

ABLE ARMOR

SAFARILAND[®]
ARMOR

Safariland[®] Body Armor is purpose-built for protection, comfort and fit for the demanding way an officer moves and works. Designed for maximum coverage and maneuverability, each ballistic panel and carrier features technologically advanced materials and design elements. Best-in-class ballistic performance optimizes coverage, weight, thinness and flexibility throughout the entire line.

Every Layer is Built to Perform

Each ballistic panel is engineered to provide unparalleled protective performance, while ergonomically designed to follow the body's natural shape and movement for flexibility and enhanced range of motion. With maximum coverage, stopping power, and all-day comfort.

DEFIES THE ELEMENTS

Heat-sealed TPU cover helps prevent bullet penetration and keeps the panel dry even in extreme conditions. Soft nylon shell increases comfort and durability. (Excludes Hardwire)

THE RIGHT FIT

Specific male and female panels feature a contoured biomorphic design with perimeter stitching to enhance comfort and stopping power.

DISPERSED ENERGY

Ballistic subsets made of high-performance ballistic materials disperses a bullet's impact yet is thin, light and flexible.

HARDWIRE ARMOR SYSTEMS

HARDWIRE®

This soft armor is a combination of perfectly interlaced multi-functional fibers and game changing polymer technology. Hardwire's proprietary manufacturing technology equates to the lightest armor in the world, with unprecedented stopping power.

Model	NIJ Model	Threat Type	Areal Density	Thickness	V50 (9mm)	V50 (.357 Mag)	V50 (.357 Sig)	V50 (.44 Mag)
Hardwire 68	HW-2015-10-SB	IIIA	0.68	0.18	-	-	1755	1661
Hardwire 74	HW-2015-09-SB	IIIA	0.74	0.19	-	-	1791	1634

Concealable Armor

SUMMIT™

Providing unparalleled comfort and a soft, flexible feel, this panel provides exceptional ballistic performance and reduces heat buildup with the use of advanced, exclusive materials. It is unsurpassed in providing heightened protection against an array of special threats.

Model	NIJ Model	Threat Type	Areal Density	Thickness	V50 (9mm)	V50 (.357 Mag)	V50 (.357 Sig)	V50 (.44 Mag)
SM02	BA-2000S-SM02	II	0.79	0.190	1770	1676	-	-
SM02F	BA-2000S-SM02F	II	0.79	0.190	1717	1659	-	-

COVERT CARRIERS

Ergonomic designs, lightweight fabrics and contoured stitch lines are the platform on which comfort and mobility are built into every covert carrier. From the ultra-concealable F1 to the premier features of the P1, these covert carriers are a sampling of how Safariland® Armor covers all the bases for fit, comfort, and performance.

P1

- Lightweight four-way stretch ripstop shell fabric
- High-performance spacer mesh liner
- Complementary lightweight spacer mesh liner for improved airflow
- Removable contoured ergonomic straps, with controlled stretch
- Front and back plate pockets
- Zip out front and back panels for easy accessibility with zipper garage
- Strategically located ergonomic VELCRO® Brand hook and loop channels for easy fastening and removal
- High-profile VELCRO® Brand hook and loop fasteners for extra strength and durability

BACK

M1

- Front and rear plate pockets
- Removable contoured ergonomic straps, with controlled stretch
- Durable hexagon ripstop shell fabric
- X-Static® silver anti-microbial wicking mesh liner
- Full row high-profile VELCRO® Brand hook and loop closures
- Strategically located ergonomic VELCRO® Brand hook and loop channels for easy fastening and removal

BACK

F1

- Second skin construction for ultra-concealability
- Ergonomic design for multi-directional mobility
- Pullover one-piece with no zippers
- Maximum comfort for all day use
- Internal side entry for easy panel insertion
- Lightweight compression
- Breathable high performance laminated four-way stretch fabric
- High-performance cooling spacer mesh liner
- Anti-bacterial odor-control finish

BACK

Overt Carriers

V1 CLEAN

- Custom clean laser-cut MOLLE loops allow for VIEVU® camera chest and shoulder placement
- Laser-cut webbing for mic attachment on shoulders
- Removable ID pull down tabs
- Custom configured embellishment options
- Front hidden pockets with internal mesh pockets
- Clamshell VELCRO® Brand hook and loop-adjustable shoulder closures
- Adjustable sides
- Quick access angled hidden gun pocket
- Front opening loading plate pocket
- Back top-loading plate pocket
- Discreet zippers for panel insertion

T I C A L A R M O R

PROTECH® Tactical - a brand synonymous with innovative designs and cutting edge technologies, brings some of the most well-known and recognized tactical products to the market. We strive to be the experts in tactical body armor, accessories and equipment, and push our products to the limits to do so. Staying ahead of the competition and accomplishing our goal of protecting the protectors, we collaborate with companies driven by the same passion for quality products and design ingenuity. **PROTECH** and its exclusive partners set the standard of quality and innovation across a range of products designed to perform and protect in the world's most demanding security environments.

PROTECH®

Technologies

Safariland Body Armor offers a full range of ballistic solutions with lightweight performance and value. NIJ Standard-0101.06 approved, these panels are special threat tested and feature dynamic material hybridization for optimum protection against a full array of threats.

SEE PAGE 33

Hardwire® Ballistic Technologies

In collaboration with Hardwire, LLC, PROTECH® Tactical offers their most coveted carriers and plate rack systems with the lightest Level IIIA body armor on the market, as well as lightweight Type III plates.

FirstSpear® 6/12™ LOAD-BEARING PLATFORM

Durable and lightweight, the laser cut slits of the 6/12™ technology provide an extremely lightweight option for the operator. This new offering expands our breadth of load-bearing platforms and is compatible with all pouches offered in the PROTECH® Tactical line.

FirstSpear® Tubes™ RAPID RELEASE CLOSURE SYSTEM

The Tubes™ closure is a highly sought-after rapid release system that utilizes polymer tubes for shoulder-to-carrier and cummerbund-to-carrier attachment points.

Blue Force Gear® Helium Whisper® POUCH BACKERS

Helium Whisper® is a revolutionary pouch attachment system that capitalizes on the lightweight and durable properties of state-of-the-art ULTRAcamp® material.

Blue Force Gear® ULTRAcamp®

A high-performance laminate utilized in a range of PROTECH Tactical products including AWS load-bearing platforms and LT pouch backers. Its hydrophilic feature allows products to stay dry and light, while exceeding military standard tear and abrasion standards.

Canine Armor

BARK-9™ HIGH-SPEED CANINE ARMOR SYSTEM

- Designed for the modern K-9 officer with features to suit today's modern police, SWAT or special operations canine
- Reinforced stitching for durability
- Restraint handle and D-rings for adjustable leash attachment
- Hook and loop ID attachment platforms
- Additional modular webbing for video/surveillance equipment attachment
- Rugged 500-denier Cordura® nylon and long-lasting wear
- Detachable spine extension (2" of ballistic overlap)
- Various ballistic packages available
- Sizes Small to X-Large

AMMUNITION LINE OF POUCHES SHOWN ABOVE

POUCH BACKERS

Available in two options: traditional MOLLE web attachment on durable Cordura® nylon pouches, and First Spear's Helium Whisper® MOLLE attachment with its high-performance wear- and tear-resistant ULTRA-comp™ laminate material.

CORDURA® NYLON POUCH BACKERS

HELIUM WHISPER POUCH BACKERS

AMMUNITION / MAGAZINE POUCHES

- TP1 P90 Magazine Pouch, Double
- TP2 UMP 45 Magazine Pouch, Double
- TP3 MP5 Magazine Pouch, Double
- TP4 M4 Magazine Pouch, Double, Stacked
- TP4A M4 Magazine Pouch, Double, Staggered
- TP4B M4 Magazine Pouch, Double, Tango Down
- TP5 M4 Magazine Pouch, Single
- TP5A M4 Magazine Pouch, Double
- TP5B M4 Magazine Pouch, Triple
- TP6 M4 Magazine Pouch, Short, Single
- TP6A M4 Magazine Pouch, Short, Double
- TP6B M4 Magazine Pouch, Short, Triple
- TP7 M4/Side Arm Magazine Pouch, Dual/Double
- TP8 MP5/Side Arm Magazine Pouch, Dual/Double
- TP9 SR25 Magazine Pouch, Single
- TP9A SR25 Magazine Pouch, Double
- TP10 Side Arm Magazine Pouch, Single
- TP10A Side Arm Magazine Pouch, Double
- TP10B Side Arm Magazine Pouch, Triple
- TP11 12 Round Shot Shell Pouch
- TP11A 24 Round Shot Shell Pouch

LESS LETHAL POUCHES

- TP12 37/40 mm Less Lethal Pouch, Single
- TP12A 37/40 mm Less Lethal Pouch, Double
- TP12B 37/40 mm Less Lethal Pouch, Triple
- TP12C 37/40 mm Less Lethal Pouch, 7 Round
- TP12D 37/40 mm Less Lethal Pouch, 7 Round, Flip Down
- TP13 MK3/MK4 Aerosol Pouch
- TP15 Grenade Pouch, Single
- TP15A Grenade Pouch, Double
- TP16 #25 Distraction Device® Pouch, Single

UTILITY/MISCELLANEOUS POUCHES

- TP14 Expandable Baton/Flashlight Pouch, Single
- TP14A Expandable Baton/Flashlight Pouch, Double
- TP14B 26" Expandable Baton Pouch, Single
- TP14C Pelican 7060 Flashlight Pouch, Single
- TP17 Handcuff Pouch, Single
- TP17A Handcuff Pouch, Double
- TP18 Gas Mask Pouch
- TP19 Utility Pouch, 8" X 8"
- TP19A Utility Pouch, 4" X 8", Vertical
- TP19B Utility Pouch, 4" X 8", Horizontal
- TP20 Medical Pouch
- TP21 Radio Pouch, Universal
- TP21A Radio Pouch w/ Bungee, Universal
- TP22 Hydration Pouch
- TP22A Hydration Pouch, Nalgene
- TP22B Hydration Bladder, 2.5L
- TP23 Modular Webbing Adapter Platform
- TP24 6" X 6" Side Plate Pouch
- TP31 Medical Shears Pouch
- TP32 Dump Pouch, Stowable
- TP33 Tourniquet Pouch

SET OF SIX (6) POUCHES

(MUST BE ORDERED W/ TACTICAL VEST OR PLATE RACK)
Set of Any Six (6) Pouches

Tactical Equipment

PORTAL LADDER

- The Portal Ladder™ is a unique foldable ladder that provides mission flexibility and versatility to tactical teams
- Portable – hand carry strap allows for quick and easy movement through confined spaces. Backpack harness allows for hands-free carrying
- Night use/vision compatible
- Non-conductive composite material

Available in 5 height offerings:

- | | |
|-----------------|-----------------|
| 6 ft – 21 lbs. | 12 ft – 42 lbs. |
| 8 ft – 28 lbs. | 14 ft – 49 lbs. |
| 10 ft – 35 lbs. | |

PORTAL Ladder

PATENT PENDING

WEAPONS TRUNK BOX

WITH TYPE IIIA BALLISTIC SHIELD LID

The PROTECH® Tactical Weapons Trunk Box features a type IIIA ballistic shield which is integrated into the box as the lid. Fleet-friendly, the weapons trunk box allows for secure long-arm weapon storage, with the larger trunk accommodating other mission-specific gear such as helmets and plate racks.

- Offered in a standard 36" x 16" with the options of a 7" height (36 lb. total weight/14 lb. shield) or 12" height (49 lb. total weight/14 lb. shield)
- Key lock or 3-digit rotary combination
- Side ventilation holes
- Collapsible/spring-loaded rubber padded carry handles
- Full length tongue and groove rear hinge strength and weight standards for Class 1A working load rating of 300 lbs.

Hard Armor Plates

Safariland offers an extensive range of PROTECH® tactical armor plates designed to increase your protection with virtually any vest configuration or threat. Our independently tested, NIJ-0101.06 certified and NIJ-0101.04/05 tested line of single and multi-curve rifle plates are available in a variety of cuts.

HIGH-CUT

SHOWN WITH OPTIONAL ACCESSORIES

DELTA™ X

An ultra-lightweight ballistic helmet designed for 9mm protection and ultimate comfort

- Tested against NIJ 0106.01 protocol, modified to address type IIIA 9mm round and velocity
- 17 gr. V50 ≥ 2400 ft/s (731 m/s)
- Warrior/ACH [brimless] style: Full-, Mid- and High-cut
- 40% lighter than traditional ACH helmets and comprised of polyethylene and other fibers in a matrix composite
- Highest fragmentation performance and lightest IIIA 9mm FMJ helmet on the market

Delta X Ballistic Helmet	Full-Cut	Mid-Cut	High-Cut
Finished Large Shell Weight (approx.) (Suspension not included)	1.47 lbs. (0.67 kg)	1.37 lbs. (0.62 kg)	1.26 lbs. (0.57 kg)
Available Retentions:	Team Wendy® CAM Fit™ & EPIC Air™		

SHOWN WITH OPTIONAL ACCESSORIES

DELTA™ 5

A lightweight ballistic helmet designed for your frontline and special forces needs

- Tested against NIJ 0106.01 protocol, modified to address type IIIA rounds and velocities, 9mm & .44 Magnum
- 17 gr. V50 ≥ 2400 ft/s (731 m/s)
- Warrior/ACH [brimless] style: Full-, Mid-, High-cut
- 30% lighter than traditional ACH helmets and comprised of polyethylene and other fibers in a matrix composite

Delta 5 Ballistic Helmet	Full-Cut	Mid-Cut	High-Cut
Finished Large Shell Weight (approx.) (Suspension not included)	1.87 lbs. (0.85 kg)	1.74 lbs. (0.79 kg)	1.60 lbs. (0.53 kg)
Bolted Available Retentions:	Team Wendy®, R2S with Mesh, and R2S with Padding		
Boltless Available Retentions:	Team Wendy®		

NEW

SHOWN WITH OPTIONAL ACCESSORIES

DELTA™ 6

- Tested against NIJ 0106.01 protocol, modified to address Type III rounds and velocities, 7.62 x 51 mm 147gr. FMJ (M80)
- 17 gr. V50 ≥ 3000 ft/s (914 m/s)
- Warrior/ACH [brimless] style: Full-, Mid-, High-cut

Delta 6 Ballistic Helmet	Full-Cut	Mid-Cut	High-Cut
Finished Large Shell Weight	3.3 lbs. (1.5 kg)	3.1 lbs. (1.4 kg)	2.85 lbs. (1.3 kg)
Available Retentions:	R2S with Mesh, R2S with Padding, Team Wendy, 4-point with mesh, 4-point with padding		

SHOWN WITH OPTIONAL ACCESSORIES

DELTA™ 4

The patriarch ACH/warrior style ballistic helmet offering trusted and tested protection and comfort

- Tested against NIJ 0106.01 protocol, modified to address type IIIA rounds and velocities, 9mm and .44 Magnum
- 17 gr. V50 ≥ 2058 ft/s (627 m/s)
- Warrior/ACH [brimless] style: Full-, Mid-, High-cut

Delta 4 Ballistic Helmet	Full-Cut	Mid-Cut	High-Cut
Finished Large Shell Weight (approx.) (Suspension not included)	2.50 lbs. (1.13 kg)	2.35 lbs. (1.07 kg)	2.15 lbs. (0.98 kg)
Available Retentions:	Team Wendy®, R2S with Mesh, R2S with Padding, 4-Point with Mesh and 4-Point with Padding		

PASGT

Full coverage ballistic helmet for Personnel Armor System Ground Troops

- Tested against NIJ 0106.01 protocol, modified to address type IIIA rounds and velocities, 9mm & .44 Magnum
- 17 gr. V50 ≥ 2058 ft/s (627 m/s)
- Personnel Armor System Ground Troops design – Full-cut with brim

PASGT Ballistic Helmet	Small-Medium	Large-X-Large	Jumbo
Finished Large Shell Weight (approx.) (Suspension not included)	2.80 lbs. (1.27kg)	3.0 lbs. (1.36 kg)	3.5 lbs. (1.58 kg)
Bolted Available Retentions:	R2S with Mesh, R2S with Padding, 4-Point with Mesh and 4-Point with Padding		
Boltless Available Retentions:	R2S with Padding and 4-Point with Padding		

PROTECH® Tactical is proud to partner with companies driven by the same passion to outfit users in the industry's highest quality and most cutting-edge technologies and products. Our partnership with Team Wendy® allows for our Delta™ line of helmets to be outfitted in the lightest and most innovative retention and suspension systems currently on the market.

TEAM WENDY® EPIC AIR™ SUSPENSION

- EPIC Air takes helmet liner systems to a whole new level with lightweight features, ultimate comfort design and blunt trauma protection
- Zorbium™ impact liner features Milspec moisture wicking and loop fabric with anti-microbial comfort pads
- Air channels allow for air flow and temperature control
- Exceeds ACH blunt impact requirements (AR/PD 10-02)

TEAM WENDY® CAM FIT™ RETENTION

- CAM Fit is the most efficient yet durable retention system available, based on a dial ratchet mechanism for quick and secure placement
- CAM-lock™ sliders allow for one-handed adjustability
- Boa® Closure system stabilizes helmet weight by distributing a light, even pressure around the head
- Adjustment straps and chin cup designed for a close, comfortable fit to the wearer's face

R2S™ SYSTEM PROTECH R2S RATCHET WITH PADDING OR MESH CROWN SUSPENSION SYSTEM

- PROTECH's trusted ratchet system that features easy adjustment and a durable hold
- Enhanced security and customizable fit for any head size
- 2" diameter ratchet dial at nape for easy adjustment
- Fas-Trac® components allow for effortless tightening while creating resistance to prevent loosening during use

PADDING SUSPENSION SYSTEM

A traditional padding suspension available in Non-FAT or Milspec, 8-pad configuration for a more customized fit

MESH CROWN SUSPENSION SYSTEM

Our patriarch suspension featuring a 4-point height-adjustable, floating mesh crown component with chin strap

NEW

FOXFURY® HHC TACTICAL LIGHT

- Weight – 4.4 oz
- Battery life: 4-24 hours
- 4 high-powered LED colors
- Power
 - White Light: 10-82 Lumens
 - Red/Blue Lights: 10-38 Lumens
 - Infrared: 25-110 mW
- Versatile design with multiple helmet mounting options
- AA battery operated
- Operating temperature: 14°F to 300°F
- 24-month warranty
- Fire, water, and impact resistant

DK6-H.150 NON-BALLISTIC FACE SHIELD

- NIJ 0104.02 Riot Face Shield
- Polycarbonate lens – hardened and scratch resistant
- Molded 1" brim provides clearance for various gas masks
- Compatible on full- & mid-cut helmets
- Dual liquid barrier
- Interchangeable locking mechanism featuring one-hand release
- Dual retention locks located on both sides of the band to hook to the helmet shell at the base of the shell's ear mold. Adjusts to full or mid-cut cuffs

DK7-X.250AF-RC NON-BALLISTIC FACE SHIELD

- NIJ 0104.02 Riot Face Shield
- Polycarbonate lens – hardened and scratch resistant
- Easily installed onto Picatinny rail sets by rail adapters that slide, adjust and attach to desired location
- Adjustable lens clearance is compatible with helmets with accessories ie. shrouds
- Compatible on full-, mid- and high-cut helmets
- Interchangeable locking mechanism featuring one-hand release
- Weight: 1.0 lbs
- Thinness: 0.150"

BALLISTIC FACE SHIELDS

PROTECH® Tactical ballistic face shields are available for Full- and Mid-cut helmets. The face shields are easily secured to the helmet using a 360° band fastening system.

- Manufactured of polycarbonate/acrylic laminate
- Curved design offers complete facial protection from the helmet brim to below the chin area
- Unique band-fastening system permits quick attachment or detachment and eliminates drilling that could affect ballistic integrity

BALLISTIC FACE SHIELD RAIL MOUNT

- For attachment of ballistic face shield to all Safariland helmets equipped with industry standard side rails and accessories
- Enhances speed of full-, mid- and high-cut attachment and detachment of all models of ballistic face shields
- Compatible on full, mid, and high cut helmets
- Easily deployed with one hand from stowed to deployed position with locking mechanism

SHIELD SUPPORT HOOK

Designed to reduce the load-carrying fatigue of extended shield deployment on the user by allocating shield weight onto the attachment.

- Compatible on traditional modular webbing and webless load-bearing platforms
- Easy weave and snap function allows for quick donning and doffing
- Adjustable slide buckle to accommodate users/shield size [up to 36" in length]
- Compatible with all PROTECH® ballistic shields NIJ 0108.01 types III and IIIA –

comes standard with each NATO shield order

FOXFURY® TAKER B50 LIGHT BAR FOR BALLISTIC SHIELDS

The most powerful after-market ballistic shield light available from FoxFury, the Taker B50 is a durable and effective lighting system for tactical operations. Composed of materials such as nylon protective guard, polycarbonate lens and heavy-duty steel braided cable, the Taker B50 is water, impact and fire resistant.

- Weight: 21 oz.
- Battery life: 5-8 hours
- Lithium battery operated (batteries not included)
- Operating temperature: 14°F to 300°F
- 24-month warranty
- Easily installed in-field via hook and loop platform for custom placement or ordered with any PROTECH Tactical shield for standard factory installation *excludes Intruder™ and Intruder™ G2™ models
- 1000 lumens

NEW

FOXFURY® TAKER B10 SHIELD LIGHT

- Weight: 4.7 oz
- Battery life: 1.5 – 10 hours
- 380 lumens
- 1200-foot beam distance
- Lithium battery operated (batteries not included)
- Operating temperature: 14°F to 300°F
- 24-month warranty

NEW

FOXFURY® TAKER B30 SHIELD LIGHT

- Weight: 12.1 oz
- Battery life: 5-8 hours
- 600 lumens
- Low-profile
- Lithium battery operated (batteries not included)
- Operating temperature: 14°F to 300°F
- 24-month warranty

SAFARILAND®

Industry-leading Safariland® communications products are the brand of choice among law enforcement, military and various related markets. Liberator headset systems are in use with all of the branches of the U.S. military, law enforcement agencies and customers in over sixty countries. Celebrating over 20 years, our digital hearing protection technologies meet or exceed all military specifications for hearing conservation while still providing the wearer with excellent situational awareness of their surroundings.

PATENT PENDING

LIBERATOR® IV

ADVANCED SINGLE COMMUNICATIONS HEADSET

- First of its kind multi-mode headset: Electronic Noise Compression and Active Noise Cancellation
- Multiple Push-to-Talk options
- Industry-leading sound localization for maximum situational awareness and threat detection
- Dual Fuel technology which enables the headset to run on either two AAA or one CR123 battery
- First headset with user audio profiles modifiable with simple keystrokes on the headset
- Upgradeable and updateable software by using Near Field Communications (NFC) technology
- Proprietary high-definition speakers and speaker enclosures
- Advanced RF and TDMA PCB protection technology
- Boom microphone featuring noise-cancelling and shielding protection
- Two headset suspension options
- Modular headset suspension – User-adjustable with no tools for either over-the-head, behind-the-head, or helmet rail mounted (rail mounts included)
 - Over-the-head comfort fit – Traditional over-the-head for low-cut helmets
 - Proprietary Earcup design layered with sound barrier technology

LIBERATOR® V WITH R.A.C.E.

RADIO AUDIO CHANNEL ENHANCEMENT MODIFICATION

The Liberator® V dual communications headset with R.A.C.E. allows you to hear audio in both Earcups instead of just one, when only one radio is receiving. When both radios are receiving at the same time, the system reverts back to the traditional dual communications audio environment, with radio audio coming from the corresponding Earcup.

- Improves audio quality for individuals with hearing loss in one ear
- Audio still secure – absolutely no bleed through between radios
- Situational Awareness and Localization Audio still separate from Radio Audio
- Modification available on all new dual comm PTT's, or retrofit to previously purchased PTT's

PATENT PENDING

R.A.C.E.

When both radios are in use, audio received in corresponding Earcup

**RADIO 1 - RIGHT EARCUP
RADIO 2 - LEFT EARCUP**

When only one radio is in use, audio received in both Earcups

**RADIO 1 - RIGHT & LEFT EARCUPS
OR
RADIO 2 - RIGHT & LEFT EARCUPS**

HELMET MOUNTING SOLUTIONS

HELMET RAIL AND UNIVERSAL HEADSET MOUNTING ADAPTORS

- Compatibility with Ops Core type, Team Wendy type, and Crye type rails
- Billet Aluminum – more durable than polymer mounts used elsewhere
 - Extended vertical adjustment
 - Uses common Phillips head set screw
 - Non-reflective surface
- Offered with TCI manufactured rail mount
 - Designed to offer more vertical torque support than other mounts
 - Improved long lasting locking ratchet
 - Smoother rotational movement with grip surfaces
 - Non-reflective wire forms
- Can swap between over-the-head suspension and rail helmet mount
- Retrofit service for all existing Liberator II/III's - warranty maintained

Wireless Communications

LIBERATOR® V

TACTICAL WIRELESS MODULE

- Music and cell phone continuous operational time: 8 hrs
- Standby time: 10 days
- Charge time: 1 hr (lithium ion battery)
- Range: 33ft (10 meters)
- Compatible wireless profile: A2DP, AVRCP, HSP, HFP
- Multi-point pairing
- IP67 rated: dust proof and water submersible for up to 30 minutes
- Programmed with voice prompts for calling and power status
- Utilizes standard COTS 3-button wireless interface that includes accepting calls, dropping calls, and cycling music playlists
- Includes Micro-USB charging cable
- Impedance agnostic
- Also available for the Liberator III™ headset

GAS MASK SOLUTIONS

Gas Mask Solutions

MOBILE FORCE FIELD (MFF) KIT

- Connects PTT assemblies directly to a gas mask for clear audio transmissions
- Includes tubeless audio receiver, NIOSH-approved gas mask cable, military-approved connectors, enforced cables and a one-piece, overmolded system for longevity

GAS MASK ADAPTER (GMA)

- An economical and easily operated solution to gas mask connectivity
- Easily converts existing communications systems
- Can be left connected to the end user's gas mask until needed
- No modification to existing gas mask or communications accessories required
- Available in Black

ALPHA PUSH-TO-TALK (APTT)

- Gas mask connectivity comes standard
- Various options available such as cell phone, volume control, and remote PTT functionality
- Includes ambidextrous MOLLE loop-attachable clothing clip
- Utilizes the legacy U94 form factor with more advanced and reliable construction
- Available with 18 in. radio interface cable and 2-pin gas mask receptacle

M.A.S.T.™

MODULAR ANTENNA SYSTEM TACTICAL

- Increase radio antenna efficiency, line-of-sight range, user ergonomics, and to relocate tactical radio antennas
- Version 1: TNC-M to TNC-F
- Version 2: TNC-M to BNC-M with BNC-TNC quick disconnect adaptor available in straight or 90°
- Version 4: SMA-F to SMA-F
- Version 5: (Waterproof IP68) TNC-M tight angle to TNC-F
- Includes cable, M.A.S.T. antenna harness, and MALICE Clip
- Compatible with modular webbing systems
- 24" or 42" high-durability overmolded cable options available
- Compatible with military radios with TNC connections or law enforcement/first responder radios with SMA connections
- Harness available in Black, OD Green, FDE Brown and Foliage Green

Throat Microphone System

TTMK III™

TACTICAL THROAT MICROPHONE

- Offers the latest in throat conduction microphone technology
- Dual communications; upgradeable with AMC connector for use with TCI "U" series advanced Push-to-Talk (PTT) and accessories
- Well suited for use with gas masks, respirators, and/or use with NBC/WMD/HAZMAT ensembles
- Low-profile, usable with a wide array of protective face shields and ballistic helmets
- Can be worn under clothing for low visibility mission sets
- Includes TCI's PTT, a Soundwaves/FC R3™ Earcoil for crisp and clear receive audio and headset storage bag
- Users can select either our TACT-LITE™ Earmolds or the Sound-Attenuation Ear-Insert as their earpiece
- Supports over 250 different radio interfaces and manufacturers
- Custom configurations on request

LOW-PROFILE HEADSETS

Low-Profile Headsets

TECS

TACTICAL ENFORCEMENT LOW-VISIBILITY MODULAR EARPIECE

- Crystal clear audio delivered to inner-ear using Soundwaves/FC R4 Earcoil and choice of Ear-Insert types
- Noise-canceling/waterproof microphone
- TCI Push-to-Talk (PTT) assembly included
- Supports military or law enforcement/first responder radio systems
- Durable, yet supplied with flexible cables
- PTT compatible with other TCI headset products allowing future augmentation of the system and capabilities

SAS II

SPECIAL AIR SERVICE LOW-VIS

- Crystal clear audio delivered to inner-ear using Soundwaves/FC R4 Earcoil and choice of Ear-Insert types
- Multi-use system for tactical and low-visibility applications
- Noise-canceling/waterproof microphone
- Fixed Push-to-Talk assembly included
- Supports military or law enforcement/first responder radio systems
- Durable, yet supplied with flexible cables

TABC III DUAL COMMUNICATIONS

TACTICAL ASSAULT BONE CONDUCTION HEADSET

- Binaural Dynamic Audio Resonance System "DARS" is our proprietary sound reproduction system that provides pristine audio fidelity that bypasses the ear drum and goes directly to the cochlea through the mandible (jaw bone)
- State-of-the-art, bone-to-bone conduction transducers and noise-canceling boom microphone
- Supports military or law enforcement/first responder radio systems
- TCI Tactical Push-to-Talk (PTT) included, dual communications version upon request
- Lightweight, adjustable headset fits under ballistic helmets or other non-ballistic rigid or soft head gear
- Designed to leave user's ears unobstructed for natural situational awareness and peripheral hearing

HEARING PROTECTION

LIBERATOR® HP

ADVANCED HEARING PROTECTION

- First of its kind multi-mode headset: Electronic Noise Compression and Active Noise Cancellation
- Provides enhanced hearing protection in all environments, while advanced sound localization provides maximum situational awareness and threat detection
- Dual Fuel technology which enables the headset to run on either two AAA or one CR123 battery
- 100-300-hour run time (mode dependent)
- Proprietary high definition speakers and speaker enclosures
- Modular headset suspension, user adjustable to be either over-the-head or behind-the-head for maximum comfort
- Proprietary Earcup design layered with sound barrier technology
- Push-to-Talk (PTT) can also be purchased separately for use with system

COLORS

TWO-WIRE PATROL KIT

- Lightweight (less than 2 oz.)
- Quick-detach Hirose connector included
- Cable lengths optimized for threading through suits, uniforms, body armor, and other tactical apparel
- Moisture-inhibiting acoustic tubing can be used for surveillance or as a lightweight replacement for the bulky shoulder-worn speaker microphone handset
- Two ear piece types included: silicone gel tip for partial occlusion and foam tip for full occlusion and comfort
- In-ear tips provide better sound clarity, require lower radio volume, and increase radio battery run-time
- Available for Motorola XTS and APX radios; other radios available upon request

10-2

RECEIVE ONLY KIT

- Earpiece kit provides seamless audio directly from an operator's remote speaker microphone
- Isolated audio for enhanced audio reception in loud noise situations
- Compatible with any remote speaker mic with a 3.5mm non-threaded receptacle
- Allows officer to leave portable radio volume turned on while in the vehicle
- Includes moisture inhibiting acoustic tubing, durable 14" coiled 3.5mm cable, acoustically enhanced audio transducer and three semi-custom Earmolds in various sizes; Small, Medium, Large

CIPS KIT

COVERT IN PLAIN SIGHT KIT

- Provides plainclothes officers a solution to remain covert when communicating via a portable radio
- Allows officers to use a portable radio while wearing earbuds commonly associated with smartphones or MP3 players
- The portable radio is connected to a mini Push-to-Talk (PTT) Sniper Ring, so the officer is able to key the radio and use the microphone in the smartphone headset without any indication to outsiders that a tactical radio is in use
- Lightweight (less than 2oz.)
- Cable lengths optimized for threading through clothing
- Quick detach system to transition to personal electronics
- PTT available in Beige (exclusive to TCI) and Black
- Initially available for Motorola XTS, APX radios and Harris P5300/XG-75; other radios available upon request

NEW

**LIBERATOR® FLASHPOINT™ SYSTEM
FIREFIGHTER SINGLE
COMMUNICATIONS HEADSET**

- First of its kind multi-mode headset with Passive Electronic Noise Compression and Active Noise Cancellation technology that protects hearing, while allowing clear communication in the noisiest environments
- Ambient sound amplification for situational awareness / face-to-face communication
- Noise canceling boom microphone for clear voice transmission in Self Contained Breathing Apparatus (SCBA)
- Extreme temperature durability (500°F for 5 minutes)
- Cut, abrasion, and flame-resistant cable covers
- Universal axial suspension can be worn over-the-head, or behind-the-head to fit under most fire and rescue helmets
- Water spray resistant and submersible up to three (3) feet
- Compatible with all fire helmets
- Compatible with all SCBA
- Third party tested - explosive atmosphere certified, mil-spec certified and certified at 26 dB NRR
- Easily cleaned / decontaminated

SYSTEM INCLUDES LIBERATOR® SPARK™
REMOTE SPEAKER MICROPHONE (RSM)

Fire Communications

NEW

LIBERATOR® SPARK™ **REMOTE SPEAKER MICROPHONE (RSM) / PUSH-TO-TALK**

- Use as a stand-alone RSM, or integrate with a Liberator® II, Liberator® IV, Liberator® Flashpoint headset, as well as communication accessories such as TECS, TTMK III or TABC III
- 3.5mm listen only connector (monaural), compatible with 10-2, or any 3.5mm earbud
- Dual noise canceling microphones for clear transmit at any direction
- Extreme temperature durability (500°F for 5 minutes)
- Cut, abrasion, and flame-resistant cable covers
- Water spray resistant and submersible up to three (3) feet
- Ergonomic design allows ease of use with gloved hands
- Emergency Activation Button (EAB) and Push-to-Talk (PTT) easily activated with gloved hands (for most radios), while protected from accidental activations (available for most radios)
- Easily cleaned / decontaminated

NEW

LIBERATOR® OVERWATCH™ **INCIDENT COMMAND DUAL COMMUNICATIONS HEADSET**

- First of its kind multi-mode headset with Passive Electronic Noise Compression and Active Noise Cancellation technology that protects hearing, while allowing clear communication in the noisiest environments
- Ambient sound amplification for situational awareness / face-to-face communication
- Noise canceling boom microphone for clear voice transmission in Self Contained Breathing Apparatus (SCBA)
- Bifurcated audio allows simultaneous radio message reception in corresponding Earcup; right radio in right ear, left radio in left ear
- Multi-functional dual PTT allows for message transmission to one or both radios at the same time
- Universal axial suspension can be worn over-the-head, or behind-the-head to fit under most fire and rescue helmets
- Water spray resistant and submersible up to three (3) feet
- Compatible with all SCBA and public safety portable radios
- Third party tested - explosive atmosphere certified, mil-spec certified and certified at 26 dB NRR
- Liberator V® Tactical Wireless Module compatible
- Easily cleaned / decontaminated

Optional - Can be configured for extreme temperature durability (500°F for 5 minutes) and with cut, abrasion, and flame-resistant cable covers

SAFARILAN

D D U T Y G E A R

Safariland® holsters and accessories are the overwhelming choice for law enforcement officers and competition shooters around the world. Known for quality, performance and technological advancements in design, new products are continually being developed with the most knowledgeable and experienced users in the industry and field tested by users and our world-renowned Team Safariland shooters to provide you with the best available final product.

MATERIALS

SAFARISEVEN™

- Proprietary DuPont™ nylon blend that is completely non-abrasive to a firearm's finish
- Raised stand-off surfaces inside holster create airspace to easily clear debris and allow an effortless draw
- Impervious to the elements: can be submerged in water for long periods with no loss of structural integrity
- Very high heat and cold tolerances; structurally sound at 300°F and -50°F
- Can be submerged in water indefinitely and still maintain shape and function

SAFARISEVEN COLORS

SAFARILAMINATE™

- Impact-resistant thermoplastic alloy is thermoformed around the holster at close tolerances for an exact fit and the thermal-laminate finish
- Impervious to moisture, bloodborne pathogens, and does not break down like natural materials
- Extremely durable and maintains professional looking appearance for years
- Traditional Leather Look - in Plain, Basketweave, Hi Gloss, and Nylon-Look
- STX finishes available in Plain, Basketweave and Hi Gloss

SAFARILAMINATE & STX TACTICAL COLORS

STX TACTICAL® - exclusive "haircell" finish. Famous for its incredible strength and abrasion resistance, available in several finishes and colors

RETENTION LEVELS & SYSTEMS

Safariland duty holsters are classified by retention level from I to IV. The Safariland system for holster retention testing, developed in the 1980s, is still the only established and uniform set of criteria in the marketplace for strict testing to evaluate the retention level of a duty holster.

This testing system helps officers evaluate and make informed decisions on the type of holster needed for different scenarios and environments. This criterion sets retention levels by the duration of force and the type of action/activity the officer must complete to remove the weapon from the holster. For more information on Safariland retention level guidelines, visit Safariland.com/retention-levels.html

ALS
automatic locking system

The ALS® or Automatic Locking System provides a high level of security without adding thumb breaks, snaps, or levers requiring the use of the trigger finger.

- Intuitive release locks into ejection port and upon the draw, the thumb depresses the lever and releases the weapon
- Hood Guard helps protect the ALS from impact and premature release, especially in an attempted takeaway. Included with all duty and tactical versions

GLS
grip locking system

Much like the ALS® with its intuitive draw, the GLS™ or Grip Locking System, is automatically disengaged when taking a shooting grip

- The GLS retention device is operated by the middle finger, simply obtain a shooting grip to release the mechanism
- Automatically locks weapon in place upon holstering
- Only available on concealment models

SLS
self locking system

The SLS or Self Locking System rotating hood has been tested and proven for many years. Simply push down and rotate forward as you obtain your shooting grip.

- Rotating hood system
- Simply push down and rotate forward as you obtain your shooting grip. To close, pull back on the hood, and the SLS self locks
- Optional Sentry lever increases retention level by one

ALS / SLS
automatic locking system / self locking system

ALS/SLS Combined Retention Systems

- Rotating hood system and ejection port lock operated by the thumb once the SLS is released
- Simply push down and rotate forward as obtain your shooting grip
- Intuitively upon the draw the thumb depresses the lever and releases the weapon

Level III & IV Retention

7360

7TS™ ALS®/SLS MID-RIDE

Level III Retention™

- ALS® (Automatic Locking System) secures weapon once holstered; simple straight up draw once release is deactivated

- Holster sold separately

Duty Holster Accessories

HOLSTER MOUNTING PLATFORMS

Safariland® offers the broadest line of holsters for law enforcement, so it follows that we would also provide the most extensive line of mounting platforms and accessories for our holsters. These options add versatility, comfort, and convenience as you perform your duties.

UNIVERSAL BELT LOOP

(UBL) STYLES

- Will not pinch or add pressure to hip bone (support ridge removed from the belt shank)
- Locks onto the duty belt with belt slot design, no belt tension screws needed; will not damage top of belt
- Compatible with any holster with the 3-hole pattern

NEW

VERTICAL UNIVERSAL BELT LOOP VUBL

- 3 height adjustment options
- Can be adjusted while holster is on belt
- Passes retention pull test
- Fits 2" or 2.25" width belts

6070UBL-PAD MID-RIDE

6075UBL-PAD LOW-RIDE

- Provides a soft pad between the body and Universal Belt Loop (UBL)
- Helps address comfort issues associated with wearing a duty belt for long periods of time
- Works equally well for both male and female officers

SPACER KITS

Spacer kits are available to position the holster away from the body to accommodate various body shapes. The kits are designed for use with Safariland 3-hole pattern holsters and tactical accessories.

T-SPACER-KIT

- Positions holster farther away from body for a smooth and comfortable draw
- For use on holsters only

HDA-KIT

- Designed to lower holster by 2" (50mm)
- For use on holsters only, right and left hand specific

OVAL SPACER-KIT

- Positions upper portion of holster farther away from body without spacing the bottom any further, giving an increased "outward" cant

CUSTOMIZED-KIT

- Positions holster farther away from body for a smooth and comfortable draw
- For use with holsters or accessories

Holster Accessories

CONCEALMENT HOLSTER MOUNTING PLATFORMS

**745BL

Duty Belts

DUTY BELTS

All belts available in Black unless otherwise specified, and buckles are offered in a choice of chrome or brass finish

031
D-RING BELT 1.5" (38MM)

- Reinforced instructor-style belt
- Lined with loop material

51
GARRISON WITH SQUARE BUCKLE 1.75" (45MM)

- Full grain leather construction
- Includes removable square chrome or brass buckle

99/999
BUCKLELESS™ REVERSIBLE BELT 1.5" (38MM)

- Loop can be worn on the outside, creating a Buckleless system
- Order 999 for belt without loop lining

992
REVERSIBLE SAFARILAMINATE™ BELT 1.5" (38MM)

- Lined with loop material
- Designed to be worn under duty belts with hook as the foundation of the Safariland® Buckleless™ system
- The 992 is the contour version of the 99

942
CONTOURED BUCKLELESS™ BELT 2" (50MM) OR 2.25" (58MM)

- Tip of belt points to the right side of the officer
- Greater all-day comfort by distributing weight evenly; no sharp edges to dig into hips
- Lined with hook to mate with 99 underbelt
- Features a hidden brass hook closure

87/87V
SAM BROWNE BELT 2.25" (58MM)

- Standard duty belt with a suede lining
- 4-stitch design with free-sliding keeper to hold belt tip in place
- Double-tongued buckle and center belt stud fasten belt firmly around waist
- 87V with hook lining

146/146V
BORDER PATROL WITH BUCKLE 2.25" (58MM)

- Billeted belt design with 1.25" billets and buckle
- The 1.25" (32mm) and 2.25" (58mm) keepers hold the interior and exterior belt tips in place
- 146V version features hook lining

872
CONTOURED BELT 2.25" (58MM)

- 4-stitch design with suede lining and free-sliding keeper to hold belt tip in place
- 2.25" (58mm) duty belt is contoured for proper alignment and greater comfort
- Greater all-day comfort; no sharp edges to dig into hips

875
SAM BROWNE STITCHED EDGE 2.25" (58MM)

- Standard duty belt with a plain border stitch
- Double-tongued buckle and center belt stud fasten belt firmly around waist

4330
PADDED UNDER BELT

- 3" padded belt liner for use with duty or tactical belts
- Padding extends beyond edges of belt to help with weight distribution and remove pinch point
- Anti-bacterial and anti-microbial mesh interior

94/94P
BUCKLELESS™ BELT 2.25" (58MM)

- Features a hidden brass hook and a hook and loop closure on both ends
- Belt is lined with a band of hook and loop and attaches to the lining on the Model 99 or 992, completing the Buckleless system
- 94P without hook and loop

4320
PADDED BELT LINER

- Provides a padded buffer between duty belt and body
- Helps eliminate possible bruising and other comfort issues associated with wearing a duty belt for long periods of time

4325
NYLON BUCKLELESS™ REVERSIBLE BELT 1.5" (38MM)

- Hook and loop closure
- Lined with loop material

DUTY ACCESSORIES

- Durable SafariLaminate™ construction for long-lasting wear
- All accessories are designed to fit 2.25" (58mm) duty belts unless otherwise specified
- Finishes offered: traditional leather look; in Plain, Basketweave or Hi Gloss; STX Tactical® in all colors
- Many Safariland® duty accessories are available with hidden snap closure. Visit safariland.com/safariland
- Snap versions available in Chrome, Brass or Black

6004-27 DROP FLEX ADAPTER ON SINGLE LEG SHROUD W/ QLS 22

- Allows user to wear a thigh rig higher on the leg with more stability, eliminating leg shroud movement
- Sits low enough for use with body armor and in vehicles, while also providing two mounting points for accessories
- Includes QLS 22 Receiver Plate (can also be ordered with MLS Receiver Plate or plain)
- Fits belt widths up to 2.25" (58mm)
- Available in Black, Foliage Green, FDE Brown or Coyote Brown finishes

Shown here with 568BL Paddle and 6004-10 Single Strap Leg Shroud

6004UFA UNIVERSAL FLEX ADAPTER

- Allows user to wear a thigh rig below the hip without shifting weight farther down the leg
- Hole pattern on UFA makes connecting to various mounts possible including 568BL Paddle, ELS Fork, QLS Fork or 745BL Belt Clip
- For use in conjunction with 6004-10 Leg Shroud

6009-110 SINGLE STRAP LEG SHROUD WITH D-RING

- Utilizes a unique D-Ring on the strap for increased leg flexibility
- Single leg strap design
- Minimally-sized leg shroud for decreased footprint on the thigh

6005-10 SINGLE STRAP LEG SHROUD WITH QUICK-RELEASE

- Features harness and shroud only to mount accessories and holsters
- Leg straps feature silicone strips for non-slip traction
- Ambidextrous

6009VE D-RING STRAP WITH ENHANCED HOOK & LOOP BELT ATTACHMENT

6005VE QUICK-RELEASE BUCKLE WITH ENHANCED HOOK & LOOP BELT ATTACHMENT

- Fits Safariland® tactical leg shrouds
- Belt attachment portion can be detached when not needed
- Secondary hook and loop flap ensures continuous attachment to belt when in use
- 6009VE model provides easy lateral movement

6009VE

6005VE

6009-11 D-RING STRAP

- Provides easy lateral movement
- Fits all Safariland® tactical shrouds

6004-11 VERTICAL LEG STRAP

- Fits tactical holster systems
- Replacement strap for standard tactical rigs

Leg Shrouds & Accessories

6005-23
MLS ACCESSORY FORKS ON QUICK-RELEASE STRAP

- Allows mounting of any tactical holster, with quick-release leg strap, directly to the MOLLE loops on the side of a vest or MOLLE web belt
- Enables user to forgo wearing a belt and put the weight onto a load-bearing vest and thigh rig
- Ideal for combining with a tactical vest, without having to make any changes to a duty belt, to be ready as a first responder
- Also available with QLS fork

6009-23
MLS ACCESSORY FORK ON D-RING

- Allows mounting of any tactical holster with D-Ring strap directly to the MOLLE loops on the side of a vest or MOLLE web belt
- Enables user to forgo wearing a belt and put the weight onto a load-bearing vest and thigh rig

BACK

MSA
MOLLE SLIDING ADAPTER

- Compatible with Model 71 Tactical Universal Magazine Pouch
- Easily slides and locks into MOLLE webbing; removable in seconds
- Minimal space used on MOLLE vests
- Permits multiple pouches lined up side to side

774
RIFLE MAGAZINE POUCH

- Clip-on belt attachment to fit 1.5" (38mm) to 2.25" (58mm) belts
- Adjustable for carry angle
- SafariLaminate™ thermoformed construction with tension device
- Ambidextrous
- Can be ordered with ELS Locking Forks attached
- Available in Black, Foliage Green, FDE Brown or Coyote Brown finishes

TMA
TACTICAL MOLLE ADAPTER

- For use with Safariland® 3-hole patterned holsters
- Easily adjusts with Phillips screwdriver
- Full 360° cant
- Comes standard with MLS 16 MOLLE Locking Fork or as stand alone model
- Available in Black

4555
SHOOTERS' RANGE BAG

- Removable center carry compartment has zippered, padded side panels for four separate handgun compartments
- Adjustable hook and loop dividers to personalize accessory space
- Magazine pouches conveniently sewn into main storage area
- Two large exterior pockets, two large end pockets with flap closure, and a fully lined interior
- Full-wrap carry handles make it easy to move gear to different shooting stations
- Outer carry bag has dual zipper top for easy access and full coverage, flat side zipper pocket, ID window, and large outside zippered pocket for towel, shooting glasses or hearing protection
- Overall dimensions: 14" x 9" x 10"

GUN CASES

Safariland® gun cases are feature-laden, made from rugged ballistic pack cloth and are offered in Black only unless otherwise specified

4553

PREMIUM DUAL HANDGUN CASE

- Full interior closed-cell foam surrounded by soft lining for safe handgun storage
- Four outside magazine/accessory pouches
- Dual concealed pockets to individually protect handgun
- 12" length to carry up to 6" handguns
- Wraparound handles

4552

DUAL RIFLE CASE

- Heavy-duty lockable zippers, one adjustable outside covered accessory pouch
- Large dual handgun/accessory pouch with individual hook and loop enclosed handgun areas
- Closed-cell protective foam padding and 2" perimeter lip
- Assorted accessory pockets inside case
- Adjustable padded shoulder harness for shoulder carry
- Includes adjustable backpack-style carry straps that tuck away in storage pocket when not in use
- Available in Black or Tan and in 36" or 46" lengths

NEW

4566

ENHANCED 3-GUN BAG

- Heavy-duty lockable zippers, two adjustable outside accessory pouches
- Large dual handgun/accessory pouch with individual hook and loop enclosed handgun storage areas, and four pistol mag pouches large enough for extended magazines
- Closed-cell protective foam padding and 2" perimeter lip
- Assorted accessory pockets inside case
- Adjustable padded shoulder harness for shoulder carry
- Includes adjustable backpack-style carry straps that tuck away in storage pocket when not in use
- Unique zippered barrel expansion slot on side of case can be opened to allow use of longer firearms (up to 55")
- 51" overall length (with expansion slot closed)

Quick Attachment Systems

Safariland® Quick Attachment Systems, consisting of the QLS, ELS and MLS, represent the coming together of technology, with the requirement for modular and versatile products. Originally designed for the military to quickly transfer the holster from the leg to the vest, the QAS family has now gone beyond strictly military functions to include law enforcement, concealed carry and sporting applications. Whether the scenario facing you involves the need to adjust holster location to conserve space while boarding an APC, or to quickly switch out magazine types before the latest 3-Gun match, the QAS family of products will help accomplish your goals.

MLS (MOLLE LOCKING SYSTEM)

- Provides a holster or accessory with a quick, easy, and secure attachment to any MOLLE loop-equipped apparel
- Allows for quick removal and installation between attachment points such as the MOLLE vest, belt loop, and/or tactical leg shroud
- Allows many types of Safariland holsters and accessories to be mounted at various orientations and angles to suit the needs and preferences of the individual user
- Operator can rearrange gear quickly and easily without the use of tools
- Allows holstered weapons and accessories to be removed without removing apparel, such as vest, leg shroud or belt
- Mount almost any holster or accessory in the right position for any mission

PATENTED

MLS16

1. MLS 16 ACCESSORY LOCKING FORK

- Threads directly through MOLLE loops to mount pouches, or into the back of the QLS 22 or ELS 35 for attachment of pouches and holsters to vests
- Colors: Black, Foliage Green, OD Green, FDE Brown or Coyote Brown finishes

ELS (EQUIPMENT LOCKING SYSTEM)

- Provides a mounting platform for any tactical and competition accessories to be placed in various locations, including belt clips and tactical rigs or directly on MOLLE loops with the use of an MLS 16 Locking Fork
- Fork attaches to any tactical or competition accessory, including the 774 Rifle Magazine Pouch, 78 Slimline Dual Magazine Pouch, and Impact Round cases
- Receiver plate mounts to any thigh rig, 744BL belt clip or MLS 16 fork (for use of ELS on MOLLE loops), or can be attached directly to the pre-cut mounting holes on any QAS belt
- A quick pinch of the thumb and index finger allows the removal of any product attached to the fork unit for attachment on any other ELS 35 location
- May be purchased with or placed directly onto the 744BL belt clip for convenient waistline location
- Useful in quickly switching out accessories while maintaining the same root product, whether it be a belt, thigh rig or magazine pouches for a competition event, etc.
- Very small receiver footprint (1 7/8" W x 2 3/4" H)

PATENTED

ELS 34 & 35

1. ELS 34 EQUIPMENT LOCKING FORK

- Mounts to any tactical accessory, then connects to the ELS 35 Receiver Plate
- Colors: Black, Foliage Green, OD Green, FDE Brown, or Coyote Brown finishes

2. ELS 35 EQUIPMENT RECEIVER PLATE

- Mount platform for tactical thigh rig or any other two-hole accessory location
- Colors: Black, Foliage Green, OD Green, FDE Brown, or Coyote Brown finishes

QLS (QUICK LOCKING SYSTEM)

- The QLS provides officers the ability to easily and quickly remove and secure their weapon without having to remove weapon from holster. Especially effective in correctional institutions and courthouse appearances
- Effective for concealed carry in ease of transferring gun from body to other mounting point, such as vehicle
- Mount almost any Safariland® duty holster on an equipment belt with use of the Safariland UBL
- Provides a highly versatile holster system with a quick, easy and secure attachment to a variety of locations – belt, thigh rig, furniture, or vehicle, etc. Can also be used with the Safariland MLS 16 Accessory Locking Fork for attachment to MOLLE vests
- QLS System passes Level I Retention™ pull test

PATENTED

QLS 19 & 22

FOR DUTY USE – PASSES LEVEL I RETENTION™ TEST

1. QLS 19 DUTY HOLSTER LOCKING FORK

- Mounts directly to the back of any 3-hole pattern holster, then connects to the QLS 22 Receiver Plate
- Colors: Black, Foliage Green, OD Green, FDE Brown or Coyote Brown finishes

2. QLS 22 DUTY RECEIVER PLATE

- Mounting platform for the QLS 19 Duty Locking Fork. Attaches directly to Universal Belt Loop (UBL), thigh rig or other mounting platforms
- Colors: Black, Foliage Green, OD Green, FDE Brown or Coyote Brown finishes

3. QLS 22L DUTY RECEIVER PLATE

- Same as the QLS 22 with an extra locking feature

PATENTED

6367

ALS®/SLS BELT LOOP

- ALS® (Automatic Locking System) secures weapon once holstered; simple straight up draw once all releases are deactivated
- Includes SLS hood assembly and Hood Guard
- Optional Sentry available
- Available in Plain Black or STX Tactical® finishes

PATENTED

6378

ALS® CONCEALMENT PADDLE & BELT LOOP COMBO

- ALS® (Automatic Locking System) secures weapon once holstered; simple straight up draw once ALS is deactivated by thumb while obtaining shooting grip
- Injection-molded paddle design is highly concealable and rides close to body
- Injection-molded belt loop is user adjustable for cant and can be worn crossdraw
- IDPA approved
- Optional ALS® Guard available for increased security
- Genuine SafariLaminate™ thermoformed construction with suede lining to help protect the gun's finish
- Available in STX finishes

6376

HI-RIDE BELT SLIDE

- Rides 1" higher than standard belt slide
- Available in 1.5" (38mm) and 1.75" (45mm) belt width

PATENTED

6379

BELT CLIP

- Features 745BL Belt Clip for easy attachment and detachment from belt
- Fits belt widths from 1.5" (38mm) to 2.25" (58mm)

PATENTED

The ALS® or Automatic Locking System provides a high level of security without adding thumb breaks, snaps, or levers requiring the use of the trigger finger. With several patents to its credit, the key to this system is an internal locking device that secures the weapon in all directions simply upon re-holstering. Holsters with this advanced ergonomic design are completely operable with the thumb, making training easy, and the straight-up draw makes it very instinctive to use, yet difficult for anyone other than the wearer to access.

1. Upon drawing, press back on the ALS lever for a smooth and easy straight up draw.
2. Automatically locks weapon in place upon holstering.

Concealment Holsters

PATENTED

7377

7TS™ ALS® CONCEALMENT BELT LOOP

- ALS® (Automatic Locking System) secures weapon once holstered, simple straight up draw once release is deactivated
- Open-top design without SLS for quick retrieval of weapon
- Constructed of SafariSeven™, a proprietary nylon blend that is completely non-abrasive to a firearm's finish
- Raised stand-off surfaces in holster's interior creates air space around the weapon allowing dirt and moisture to quickly clear any contact with the firearm
- Very high heat and low cold tolerances; structurally sound from 300°F to -50°F
- Injection-molded belt loop is user adjustable for cant and can be worn crossdraw
- Available in SafariSeven Plain Black and FDE Brown finishes

PATENTED

7378

7TS™ ALS® CONCEALMENT PADDLE AND BELT LOOP COMBO

- ALS® (Automatic Locking System) secures weapon once holstered; simple straight up draw once release is deactivated
- Open-top design without SLS for quick retrieval of weapon

SAFARILAND® RANGE KIT

PROFESSIONAL EYE & EAR PROTECTION

- Kit includes: HD glasses, (1) pair of ear plugs with case, (1) passive headset
- High noise reduction rating
- High quality ear seals
- Color: Gun Metal Grey

SAFARILAND®

ELECTRONIC HEARING PROTECTION

- Electronic Noise Compression technology - sound compressed and reduced to safe hearing levels
- Features sound localization for maximum situational awareness and sound detection
- Low distortion speaker technology for superior sound quality
- 325-hour run time with 2 x AAA batteries
- Proprietary Earcup design layered with sound barrier technology; offered in Black
- Single-sided controls
- Rubber cheek wells

Hearing Protection

LIBERATOR® HP ADVANCED HEARING PROTECTION

- First of its kind multi-mode headset: Electronic Noise Compression and Active Noise Cancellation
- Provides enhanced hearing protection in all environments, while advanced sound localization provides maximum situational awareness and threat detection
- Dual Fuel technology which enables the headset to run on either two AAA or one CR123 battery
- 100-300-hour run time (mode dependent)
- Proprietary high definition speakers and speaker enclosures
- Modular headset suspension, user adjustable to be either over-the-head or behind-the-head for maximum comfort
- Proprietary Earcup design layered with sound barrier technology
- Available in Black w/Red and FDE Brown

075-2 HEARING PROTECTION HOLDER

- Clips on to belt
- Available in Black

33
dB
NOISE REDUCTION RATING

IN-EAR IMPULSE HEARING PROTECTION IN-EAR PROTECTION

Helps guard against hearing damage caused by automatic fire and single gun shots, artillery fire and explosions, reducing them to safe levels, less likely to cause long term damage.

- Automatically engages to protect hearing
- Still allows for ambient audio
- Proprietary material for long wear comfort
- Includes key chain aluminum transport/storage case
- No batteries required
- Two sets of ear inserts included: (2) medium and (2) large

Light Systems

Safariland® brings innovative designs to today's light systems. The popular Rapid Light System offers a quality hand-held light and a weapon-mounted light all in one.

RLS™ RAPID LIGHT SYSTEM

1. Ambidextrous
2. Super-bright LED technology (190 lumens) – bright enough to be your primary light. Prism Reflector System penetrates light up to 350 ft.
3. Uses three AAA batteries – no expensive proprietary batteries needed
4. Integral clip for easy securement to belt or garment – no dedicated light mount holster required
5. Fits most handgun models that incorporate an integral rail system – also mounts to rifles and shotguns that have a Picatinny rail
6. Quickly transitions from standard flashlight to tactical illumination
7. Can be operated with either thumb, or change to other side to operate with trigger finger. Push button provides controllable on/off illumination of target to minimize loss of handgrip, sight picture and exposure
8. RLS™ mount will accommodate most hand-held compact lights in the range of .970 (24.6mm) - 1.060 (26.9mm) in diameter

Easily and securely attaches to waistband or belt with integral clip

Push-button illumination

Slide RLS onto Tactical Rail

Lock RLS into place with a quick upward motion

Three AAAs provide over 40 hours' use

PATENT PENDING

RRL ROGERS RAIL LITE

- Ambidextrous design fits on any 1913 rail
- Tail on/off switch is positioned right at shooters forward thumb
- Easy snap on and off installation
- Made of a heavy-duty polymer yet is extremely lightweight
- External rib design for added strength and grip
- Streamlight® Microstream® 28 lumen flashlight included

RLSM MOUNT FOR DUTY BELT

- Provides a small mounting platform on duty belt to attach the RLS™ light
- Will also accommodate any light, laser, or other accessory that will fit on a Picatinny or light rail
- Fits belt widths up to 2.25" (58mm)
- Also fits on leg shroud, MLS or ELS Locking Fork
- Included with RLS

PATENTED

RLSR RLS™ REDUCTION SLEEVE

- Enables the RLS™ mounting system to be used with lights of both .90" and .80" diameters
- Slides inside RLS mount to easily accept narrower lights

(RLS™ shown with SureFire®)

OPEN CLASS COMPETITION HOLSTER

- Body machined out of aluminum to stabilize the handgun, yet offers little resistance for a secure and fast draw
- Ball joint on holster allows complete freedom of movement to customize the handgun draw
- Fully adjustable nosepiece accommodates barrels from 5" to 7.5" (13cm – 19cm)
- Fits a variety of competition handguns, with or without red dot or magnified optics
- Injection-molded adjustable trigger guard lock
- Front nosepiece designed to retain handgun and help prevent gun from being knocked out of the holster once seated
- Incorporates a simple push lock which secures weapon into the trigger block
- Also available for Glock, S&W and M&P
- Available in Black or Red finishes

002
CUP CHALLENGE COMPETITION HOLSTER

- Features dual-tension screws on the holster body, one in back of cylinder and the other in back of barrel, allowing a balanced retention of the handgun
- Loop lined belt tab provides a firm and adjustable carry when used with the Safariland Model 032 hook-lined competition belt
- Accommodates both scoped and non-scoped revolvers as well as most revolvers with standard, heavy, and slab side barrels
- Built-in removable muzzle strap protects front sights
- Available in STX Tactical® or STX Basketweave finishes

5197
RANGE SERIES OPEN TOP MID-RIDE HOLSTER

- Adjustable belt loop eliminates common belt-bulging and does not interfere with draw
- Compact and lightweight
- Detent in trigger guard for reliable weapon security
- Low-cut sides for ease of draw and added comfort
- Available in 1.5" (38mm) or 1.75" (45mm belt widths)
- Belt loop is user adjustable for cant angle; can even be worn cross draw
- IDPA approved
- Genuine SafariLaminate™ thermoformed construction
- Available in STX finishes including red

Legal for the following divisions: Bianchi Cup Open Division, Steel Challenge Limited and Open Division, USPSA Open, Limited, & Limited-10 and USPSA Multi-Gun All Divisions

Competition Accessories

USPSA KIT
USPSA KIT

- Ball joint on kit allows complete freedom of movement to customize the handgun draw
- Adjustable height bar for personalized holster height

BIANCHI

I D U T Y G E A R

BIANCHI

Celebrating more than 60 years, Bianchi® products are recognized by shooting enthusiasts and professionals the world over. The Bianchi hallmarks of handcrafted workmanship, innovative yet functional design and quality are just as strong today as they were in 1958, when John Bianchi built his first leather holster in his garage. To this day, the focus remains on providing customers with the best combination of innovation and handcrafted, time-tested designs.

Materials/Technology

Bianchi® offers a variety of materials to meet the needs of those who use our products. From AccuMold® ballistic weave to leather and leather/laminate combinations, Bianchi has a material that works for you. Our premium grade full grain leather and ballistic weave fabrics are long lasting, durable, and offer the professional look desired by law enforcement and sports enthusiasts alike.

AccuMold®

A state-of-the-art molded synthetic product of trilaminate construction - ballistic weave outer fabric, a firm, high-density closed-cell foam center; and a smooth Coptex™ lining. AccuMold® pouches are contour-molded to precisely fit the gear it was designed to carry.

AccuMold™ Elite

We've taken our patented AccuMold technology and dressed it up. The AccuMold® Elite™ line offers the same construction of AccuMold, but with a Duraskin™ outer material that looks amazingly like leather. You can't tell the difference until you pick it up and see that it's almost half the weight.

PatrolTek™

PatrolTek™ duty belts and accessories are made using our molded trilaminate technology but at a price to meet the demands of ever-tightening budgets. You don't have to give up function and wear to get duty gear at a great price.

Design, function, security, and comfort have always been at the forefront when developing new Bianchi products. Our research and development team continually focuses on new materials and new technologies to offer the best in the industry.

ALLUSION™ SERIES

The Bianchi® Allusion™ series brings you the best of leather and synthetic materials for superior performance and good looks. We start out with a thermoformed, synthetic shell precisely formed to the firearm. Then we wrap it with our premium grade, full grain, vegetable tanned cowhide and give it our finishing touches, including burnished edges and our leather dressing that gives the holster that distinctive leather look and smell. With the Allusion series, we are also able to add features not typically found with leather-only construction, such as our retention detent, smooth draw and re-holstering.

The Allusion series perfectly matches tradition and cutting edge technology, bringing leather holsters into the 21st century.

BIANCHI GUNLEATHER®

Many people love traditional leather. It wears beautifully, and nothing quite smells or feels the same. Bianchi leather is full-grain cowhide – the best available. We choose different weights based on the product requirements, handcrafting and molding it to perfection the old-fashioned way, by not cutting corners.

- We use full grain premium cowhide
- Sewing process uses a lock-stitch for quality and durability

Bianchi® offers a variety of materials to meet the needs of those who use our products. From AccuMold® ballistic weave to leather and leather/laminate combinations, Bianchi has a material that works for you. Our premium grade full grain leather and ballistic weave fabrics are long lasting, durable, and offer the professional look desired by law enforcement and sports enthusiasts alike.

PINCH® RETENTION DEVICE – PRD™

Our exclusive PRD is formed of a high strength polymer. When the weapon is firmly seated in the holster, the PRD grips the trigger guard, holding the weapon in place until you're ready to draw.

AccuMold®

7105

CRUISER™ DUTY HOLSTER

- A hi-ride duty holster that positions pistol close to the body
- Top-draw design
- Made with 50% greater density foam than standard civilian AccuMold® holsters, for firmness and strength
- Unique Coptex™ inner lining helps protect gun finish and provides a smooth draw
- Quick-Slide™ injection-molded belt loop fits up to 2.25" (58mm) belts
- Available in Black Ballistic Weave finish

AccuMold®

7120

DEFENDER® DUTY HOLSTER

- Top-draw holster with mid-ride and traditional metal reinforced thumb snap closure
- Pinch® Retention Device (PRD™) enhances firearm retention by gripping the pistol's trigger guard
- Unique Coptex™ inner lining helps protect gun finish and provides a smooth draw
- Metal reinforced 2.25" (58mm) jacket slot belt loop, curved for comfort
- Available in Black Ballistic Weave finish

AccuMold® Elite

7920

DEFENDER® II DUTY HOLSTER

- Top-draw holster with mid-ride carry and metal reinforced thumb snap closure
- Contour-molded, trilaminate construction with 50% greater density foam than civilian AccuMold® holsters
- Internal Pinch® retention device grips the pistol's trigger guard
- Soft Coptex™ poly-knit inner lining
- Metal reinforced 2.25" (58mm) jacket slot belt loop, curved for comfort
- Available in Plain Black, Basketweave Black and Hi Gloss Duraskin™ finish

AccuMold®

7115

VANGUARD™ DUTY HOLSTER

- Straight drop duty holster with mid-ride and top-draw molded internal Tension™ Strips
- Contour-molded, trilaminate construction with 50% greater density foam than civilian AccuMold® holsters
- Metal reinforced thumb snap closure
- Soft Coptex™ poly-knit inner lining
- Metal reinforced 2.25" (58mm) jacket slot belt loop, curved for comfort
- Available in Black Ballistic Weave finish

Duty Belts

- Equipment belts are constructed with either four-part or five-part laminate for long-lasting shape and exceptional durability. Four-part laminate features a firm polyethylene center strip sandwiched between a high-density, closed-cell foam, with a durable nylon lining, and either a weave or Duraskin™ exterior depending on the model
- ErgoTek belts uniquely designed to spread weight of loaded duty belt over entire waist
- CopLok polymer buckles are shatter-resistant with a 3-point release for extra security

Duty Pouches

- Lightweight – up to 50% lighter than leather in most applications
- More affordable than leather
- Improved comfort translates into better officer performance in the field
- Same beautiful look as leather – the crisp, professional appearance of premium leather without the weight, maintenance and cost
- Reinforced hidden snap closure unless specified otherwise
- Abrasion-resistant – exhibits a high level of resistance to the daily knocks, scuffs and abrasions of duty use
- Easily cleaned with only mild soap and water. Bio-safe: washing with disinfectant soap or bleach solution will handle contamination problems. Great for correctional institution duty
- All molded accessories feature the dual belt loop to fit both 2" (50mm) and 2.25" (58mm) widths unless otherwise noted

P R O T E

CTIVE GEAR

The Hatch® brand is known as one of the finest in protective performance gloves for law enforcement, tactical, military, medical and industrial safety markets. Only the finest leathers, along with synthetic and high-tech materials, are used to ensure the protective gear performs to the world's most uncompromising standards.

FIVE POINTS OF INNOVATION - TASK SERIES

ALL MODELS IN THE HATCH TASK SPECIFIC LINE FEATURE THESE FIVE INNOVATIVE FEATURES

TOUCHSCREEN-COMPATIBLE KNUCKLE FOR USE WITH ELECTRONICS

The knuckle pad provides the ability to quickly swipe the phone to take or send a call without having to remove gloves or worry about contaminating the device.

HATCH SIGNATURE ERGO-CUT™ THUMB PATTERN FOR AN ACCURATE AND COMFORTABLE FIT

Conforms to the natural curvature of the hand and offers greater dexterity and freedom of movement than a “single palm pattern.” Because we have opposable thumbs, a single piece palm bunches up and twists on the thumb when the hands are clasped.

ARTICULATED STRAP

Accommodates a larger watch as it is angled away from the wrist.

ALL-SOFT CUFF TO FLEX AROUND A WRISTWATCH

Many gloves are primarily made with a “rigid cuff,” which is actually a detriment to a watch wearer in that the cuff then has to be pushed over or under the watch. With a soft compression cuff, the cuff gently compresses around the watch during wrist flexion, and allows the watch to be usable without having to constantly adjust the cuff.

HATCH PATENTED CUT-RING

This feature allows for the optional removal of the index finger for trigger control, without unraveling the remaining edge.

ADVANCED TOUCHSCREEN SYSTEM

FOCUS ON FUNCTIONALITY

Hatch offers a full line of gloves designed specifically for use with touchscreen devices. Each glove is designed with purpose and intention based on the job at hand. Our Touchscreen gloves feature embedded ATS™ technology in the index knuckle allowing an officer to access a touchscreen device without worry of contaminating their device during grimy situations.

Duty Gloves

TASK SERIES

Knee & Elbow Pads

PATENTED

XTAK100/200/300/400/500/600

XTAK™ KNEE PADS

- Extremely light and flexible with superior protection and shock absorption with the flexibility to move the way your body moves
- Unique X-shaped thermal plastic urethane (TPU) shell
- EVA high-density foam for superior shock absorption
- Lightweight TPU and Cordura® nylon construction
- Forceful spring-back action that gives you the protection you need
- COOLMAX® inner surface for wicking moisture away
- Anti-slip inner surface to keep pad secured
- Elastic adjustable straps with Hatch® Rapid Deployment Clips and hook and loop closure for secure fit
- One size fits all

KP250

CENTURION™ KNEE PADS

- 1/2", dual-density foam covered in durable Cordura® nylon
- Polyurethane thermoplastic nonslip caps fastened with color-keyed grommets provide additional shock absorption and ensure long-lasting wear
- Dual hook and loop fastened 1.5" wide (3.8cm) elastic straps with reinforced bar tacking provide a comfortable and secure fit for all sizes
- Hatch® Rapid Deployment Clips for quick on and off
- One size fits all

PATENTED

XTAK150/250/350/450/550/650

XTAK™ ELBOW PADS

- Elbow pads with similar features as the XTAK™ knee pads
- Dual elastic straps with hook and loop fasteners
- One size fits all

**S7****SLING PACK**

- Convenient carry bag for everything from magazines to cell phones
- Constructed of heavy-duty 1000-denier nylon
- Three exterior compartments, eight interior pockets and one hidden padded compartment on side closest to body
- MOLLE loops cover the front of the bag for easy attachment of accessories
- One key clip, two pen/pencil pockets; multiple magazine/clip holders
- Unique clip on back for easy on/easy off access and minimizes bouncing while running
- Heavy-duty hardware for durability
- Weight: 2 lbs. (32 oz.), 0.9 kg.

**A6****MUNITIONS BAG**

- Designed to organize a 37/40mm launcher and plenty of munitions
- Features two clear vinyl document pockets (one interior, one exterior) and several large exterior zipper pouches for additional gear
- Constructed of durable nylon and heavy-duty hardware with two molded rubber carry handles
- 2" wide padded nylon shoulder straps allow the A6 to be carried as a backpack and stowed away when not in use
- Durable 600-denier polyester and 420-denier nylon inside with PVC reinforcement construction
- Exterior dimensions: 38"L x 18.5"W x 4"H (96.52cm x 46.99cm x 10.16cm)

E4**EXOTECH® CARRY BAG**

- Designed to carry and store the ExoTech® riot suit
- Constructed of Cordura® nylon
- Nylon web carry handles are on both sides and ends
- Features a separate helmet section
- Padded shoulder strap

**M2****MISSION SPECIFIC GEAR BAG**

- Designed to carry riot or SWAT gear and includes a separate helmet storage area
- Water-resistant Cordura® nylon
- Heavy-duty zippers and removable nylon web shoulder strap
- Removable rigid bottom in the main compartment and padded exterior walls in the helmet compartment
- Three zippered cargo pockets and two zippered mesh pockets on the exterior hold a wide variety of items
- Nylon web carry handles are on both the sides and ends
- Hook and loop straps on the padded top can secure a baton or flashlight
- Exterior dimensions: 34"L x 13"W x 12"H (86.4cm x 33cm x 30.5cm)

**G3****GIANT SWAT BAG**

- Construction consists of water-resistant polyester shell with PVC backing and heavy-duty reinforced handles and straps
- Nylon web carry handles are on both the sides and ends
- The G3 may be worn as a backpack using the 2"-wide (5cm) padded adjustable straps affixed to the bottom
- The exterior features two zippered mesh end pockets and a total of five clear vinyl map/document pockets on the top and sides
- The interior has four expandable zippered mesh pockets, four zippered pockets and one zippered pouch with padded walls for fragile gear
- Exterior dimensions: 41.5"L x 14"W x 12"H (105.4cm x 35.56cm x 30.48cm)

FIREARMS

ACCESSORIES

For decades these three legacy brands have made up the most honored names in the firearms accessories marketplace with products ranging from premium cleaning accessories and maintenance equipment to chemicals and gun accessories. KleenBore®, Break Free® and Rogers™ have been proud suppliers of products for our military, law enforcement, and hunting and shooting enthusiasts.

Cleaning Kits

UK213 Kit

CLASSIC CLEANING KITS

- These Classic kits feature the best made cleaning components in the industry
- Securely packaged in a rugged, reusable polypropylene storage carrying case
- Rods in the Handgun, Rifle and Muzzleloading Kits are made of a smooth, high-grade steel with a black oxide finish and rotating handles
- Plastic muzzle guard protects the crown of the barrel
- Shotgun kits feature a polished aluminum, three-sectioned rod set
- 2 oz. Break Free® CLP® to clean, lubricate and protect the firearm
- Double-ended nylon utility gun brush
- 100% cotton patches

POCKIT HANDGUN KIT

- Unique design of the PocKit handgun kit packs a two-section steel cleaning rod and accessories into a storage handle
- Holds a phosphor brush, cotton mop and brass jag for easy, convenient storage and carrying
- First rod section with muzzle guard, cleans up to 5" barrels
- Second rod section extends the length up to 8 3/8"
- Rod sections accept all KleenBore® handgun accessories (#8-32 thread style)
- PocKit cleaning sets are offered in a variety of popular handgun calibers

POLICE KITS

- Tailored specifically to meet the cleaning needs of firearms that are used heavily in the field
- The police handgun kits and the shotgun kit include a 1/4" diameter, precision ground stainless steel rod
- The 5.56mm, 7.62mm and .30-06 kits include a solid steel, black oxide rod
- Both rods feature a muzzle guard to prevent damage to the bore and a rotating handle that provides a precise clean by allowing the rod to tightly follow the rifling
- Each kit features a 2 oz. bottle of Break Free® CLP® solution
- Includes ½ oz. Break Free® Lubricant/Protectant – a synthetic oil specially formulated for modern firearms
- Kits also include 100% cotton patches, a doubled-ended nylon brush, a Silicone Gun and Reel cloth and caliber specific jags, brushes and mops

Cleaning Rods

CLASSIC ONE-PIECE RODS

- A variety of non-segmented rods in steel and aluminum in an array of lengths
- All rods are carefully crafted to be strong, no-fray and remain straight in the barrel, won't bow, break, bend or fray, which can cause damage to precious rifling

Part#	Caliber/Gauge	Length	Material	Accessories
OP105	.17 Cal./Airgun	33"	Steel	Brush, Mop, Brass Jag
OP106	.22-.45 Handgun	6 1/2"	Steel	Slotted Patch Holder

OP108	Shotgun All Gauges	34"	Aluminum	Slotted Patch Holder Accessory Adapter

Classic One-Piece Steel Rod

Classic One-Piece Aluminum Shotgun Rod

MULTI-SECTIONAL CLEANING RODS

- KleanBore® rods are precision-machined to exacting tolerances and surface smoothness
- Won't bow, break, bend or fray, which can cause damage to precious rifling
- Durable nylon handles on the rifle and pistol models rotate smoothly, allowing brushes and jags to travel efficiently down the bore
- All multi-section rods are packaged in well-made vinyl pouches for long-term storage

Part#	Caliber/Gauge	Sections	Length	Material	Accessories
A171	Shotgun All Gauges	3	32"	Aluminum	Slotted Patch Holder, Shotgun Accessory Adapter

SAF-T-CLAD® CLEANING RODS

- Saf-T-Clad® products are the result of a technological breakthrough involving epoxy thermal setting resins
- Resins are carefully applied in the United States on local, high-grade, solid-steel rods, and securely bond our Saf-T-Clad coating
- This special process provides an unbelievably smooth surface for the ultimate in rifling and bore protection
- An excellent choice for shooters who do a lot of cleaning and expect absolute precision and protection for their equipment

-------	----------------------------	--

PHOSPHOR BRONZE BRUSHES

- These precisely designed brushes feature KleenBore® carefully-made, thicker, straight bronze wire bristles
- Designed with rounded, smoother bristle tips rather than sharp, crimped, narrow imported brushes
- These bronze brushes offer more safe and effective cleaning power
- Will not easily bend from force down the bore
- Will not damage precious rifling

Rifle Bore Brushes

UT221

NYLON BRISTLE GUN BRUSH

- This military-style brush is great for cleaning any type of firearm, especially where a gentle touch is required. Nylon bristles are rugged and solvent-resistant

UT222

STAINLESS STEEL GUN BRUSH

- Rugged stainless steel bristles make short work of caked-on powder residue and burn marks on revolver top straps, frames and cylinders

UT223

PHOSPHOR BRONZE GUN BRUSH

- A superb, general purpose, gentle-on-the-finish brush for cleaning powder and lubrication residue from handguns, rifles and shotguns

Cotton Patches & Cloths

GUN CLEANING PATCHES

- Premium quality 100% cotton flannel provides maximum absorbency and bore protection
- Precision cut to ensure the proper fit and maximum cleaning performance when used in conjunction with our cleaning jags or patch holders
- These same quality 100% cotton patches are available bulk-packaged for high volume users such as competition shooters, gun clubs, law enforcement agencies, gunsmiths, and others

GC220S

SILICONE GUN & REEL CLOTH

- Restore and protect the luster of a firearm with our top-quality silicone injected cotton flannel
- Returns a brilliant sheen to firearms surface
- Removes handling marks, fingerprint oil, and provides a layer of rust protection
- 100 square inch cloth

GC221

LEAD AWAY® CLEANING CLOTH

- This chemically treated cloth is ideal for removing tough lead and carbon build-up
- Excellent for removing burn rings on cylinders and on stainless steel
- 110 square inch cloth

Caution: Excessive rubbing may remove bluing

CHAMBER FLAG

- On the range and when transporting or storing semi-automatic handguns, a chamber flag immediately indicates that the gun is clear and no round can be chambered
- Comes with two per pack

CF9	.45/9mm
CF22	.22 Caliber

BL304 BORE INSPECTOR®

- Fiber optics light the bores of handguns, rifles and shotguns to make checking for leading, fouling, and rust fast and easy
- Ideal for regular firearms maintenance or for examining used guns prior to purchase
- Two AAA replaceable batteries supplied

Cleaners/Lubricants/Preservatives

Made in the
USA

CLEANER LUBRICANT PRESERVATIVE (CLP®)

- Originally developed for the U.S. Military and proven in the world's most extreme conditions
- Break Free® CLP® is the gold standard formula for the ONE STEP lubricating and protectant firearm solution
- More than a superior lubricant, CLP actually cleans firing residue and other contaminants from the bore, moving parts and exterior of firearms while simultaneously reducing friction and protecting from corrosion

Part#	Description	Accessory
CLP-2	4 oz. Aerosol Spray	Extender Tube
CLP-3	1/2 oz. Squeeze Bottle	Dropper Tip
CLP-4	4 oz. Squeeze Bottle	Extender Tube
CLP-5	1 Pint Bottle	Trigger Spray
CLP-7	1 Gallon Jug	—
CLP-8	1 Liter Bottle	Trigger Spray
CLP-11	2 oz. Bottle	Pump Spray
CLP-12	12 oz. Aerosol Spray	Extender Tube
CLP-16	.68 oz. Squeeze Bottle	—
CLP-20	2 oz. Bottle	Child-resistant cap
CLP-PS	7.5ml Tube	Needle Applicator

DP-2 COLLECTOR® KIT

- **4 oz. CLP®:** Cleans, lubricates and preserves using the highest quality synthetic oils and special friction reducing, anti-wear additives and rust inhibitors
- **4 oz. Collector:** Developed to protect firearms for up to five years in storage. Will not degrade under heat or pressure and resists damage caused by fingerprint residue

Made in the
USA

LUBRICANT PRESERVATIVE

(LP)

- Originally developed for fully automatic cannons used by the U.S. military, Break Free® has taken this technology designed to keep weapons working under sustained fire and brought it to the consumer market
- Contains specially formulated polymerized synthetic oils for improved boundary film strength, plus multiple ingredients to reduce friction, stop build-up of foreign particles and inhibit rust and corrosion
- Safe for all gunmetal and gunmetal finishes from blued steel to titanium, as well as polymer composite firearms. Also prevents galling on stainless steel
- Non-solvent formula minimizes drain off when firearm is holstered

LP-3	.5 oz. squeeze bottle with dropper tip
LP-4	4 oz. squeeze bottle with extender tube
LP-5	1 pint bottle with trigger sprayer
LP-PS	7.5 ml tube with needle applicator

LP-PS

LP-5

LP-4

CLEANER & SOLVENT

CO-4 COLLECTOR® (4 OZ.)

Developed to protect firearms for up to five years in storage, Collector® exceeds stringent military specifications. Recommended for the occasional hunter or sports shooter, as well as knife and sword collectors. It's ideal for seasonal sports equipment before placing in storage. In one test, Collector protected steel panels from rust and corrosion for over 1200 hours in 100% humidity.

- Does not degrade to waxy residue under heat or pressure
- Resists damage from fingerprint residue and minimizes the need for frequent wipe down
- Perfect for gun collectors, armories and museums

GC-16 POWDER BLAST™ (12 OZ.)

- Powder Blast™ keeps all guns clean and dry by blasting away firing residues. Use it on trigger groups and mechanisms to quickly and easily remove contaminants, without leaving a white residue or unpleasant odor
- Eliminates powder residue, plastic streaking, grease and oil build-up
- No disassembly required – the extender tube provides easy access to hard-to-reach areas
- Will not hydrolyze to form hydrochloric acid, unlike products containing 1,1,1 Trichloroethane
- After using Powder Blast, protect firearms with Break Free® CLP®, or Collector® products

BE FAST, BE ACCURATE, BE THE BEST – BOOK

Bill shares his life experiences to bring the readers into the world of Reactive Shooting. He then takes them through a step by step program to make them safer and more competent gun handlers, as well as giving them the skills to survive a real life battle.

64394

TAP RACK TRAINING AID

- Most efficient way to practice dry fire drills
- Place in the magazine to prevent slide stop from engaging
- Slide passes over training aid so device does not need to be re-loaded into the magazine for continual training
- Can be used improperly seated in magazine for malfunction drills
- Available in 3, 20 and 100-packs in Orange, Yellow and Blue

64394	9mm & 40 cal.
64395	45 ACP
64396	5.56

66500/66501

MAKE READY WITH BILL ROGERS – DVDs

- Reactive Pistol Shooting – Bill Rogers walks you through Rogers Shooting School steps to teach reactive pistol shooting and how to accurately draw and knock down plates in .5 seconds
- Reactive Carbine Shooting – Successfully engage and hit small reactive targets that are moving and only exposed for a fraction of a second

LESS LETHAL

DEFENSE TECHNOLOGY®

The Defense Technology® brand offers a complete range of the industry's most trusted less lethal products. Manufactured to exacting specifications and quality standards, the products have led the industry for decades. From duty aerosols and less lethal impact munitions to our Distraction Device® products, chemical munitions and more, Defense Technology products are the choice of law enforcement, corrections and military personnel around the world.

THE FINEST TRAINING AIDS FOR THE FINEST PRODUCTS

First Defense® is the world's most widely used pepper spray in law enforcement and corrections. In recognizing the diverse environments and challenges our public safety professionals face each day, our comprehensive First Defense line utilizes a color code system to identify the intensity of that product.

The First Defense family of OC aerosol sprays are EDW safe.

- Projectile incorporates unique Collapsible Gel Head design
- Accurate to 131 feet / 40 meters
- Payload options deliver irritant or marking payloads in addition to blunt trauma
- Passed human effects assessments for safety and effectiveness

OC CS MARKING INERT

PATENTED

DIRECT IMPACT® ADJUSTABLE RANGE 40MM DIRECT FIRE MUNITIONS WITH PAYLOAD OPTIONS

- Projectile design has unique user-adjustable gas-bleed feature
- Allows velocity and kinetic energy to be adjusted for two design points, addressing close-in and extended range engagements
- Standard range velocity allows for engagements of 1.5 – 40 meters
- Extended range velocity allows for engagements of 40 – 70 meters
- Crushing nose dampens blunt trauma while delivering payload

OC CS MARKING INERT

DIRECT IMPACT® STANDARD RANGE 40MM DIRECT FIRE MUNITIONS WITH PAYLOAD OPTIONS

- Accurate to 131 feet / 40 meters
- Crushing nose dampens blunt trauma while delivering payload
- Passed extensive human effects assessments for blunt impact and penetration

OC CS MARKING INERT

DIRECT IMPACT® LE EXTENDED RANGE 40MM DIRECT FIRE MUNITIONS WITH PAYLOAD OPTIONS

- Accurate to 230 feet / 70 meters
- Crushing nose dampens blunt trauma while delivering payload
- Passed extensive human effects assessments for blunt impact and penetration
- Do not use at distances closer than 33 feet / 10 meters

OC CS MARKING INERT

PATENTED

DIRECT IMPACT® RELOADABLE TRAINING KITS 40MM RELOADABLE TRAINING ROUND

- Provides the same point of impact accuracy as the 40mm munitions it simulates
- The most cost-effective way to conduct training
- Reloading the munitions takes seconds and one hex key
- For use on inanimate targets
- Available in 50-Shot or 250-Shot Kits
- Available in Standard Range or LE Extended Range

AERIAL WARNING/SIGNALING MUNITIONS WITH PAYLOAD

40MM 50/100/200/300 METERS

- Designed to travel the indicated distance and deflagrate 20 ft. above the target when launcher is held at a 15° elevation angle
- Delivers a sound and light output which are noticeable in day or night conditions
- Produces 170 dB of sound output at 5 ft
- Produces 5 million candelas for 7.5 milliseconds
- Tactile feature on the nose of the cone to indicate designated distance

AERIAL WARNING/SIGNALING MUNITIONS

40MM 50/100/200/300 METERS

- Designed to travel the indicated distance and deflagrate 20 ft. above the target when launcher is held at a 15° elevation angle
- Delivers a sound and light output which are noticeable in day or night conditions
- Produces 170 dB of sound output at 5 ft
- Produces 5 million candelas for 7.5 milliseconds
- Tactile feature on the nose of the cone to indicate designated distance

AERIAL WARNING/SIGNALING MUNITIONS

12-GAUGE 50/100 METERS

- Designed to travel the indicated distance and deflagrate 20 ft. above the target when shotgun is held at a 5° elevation angle
- Delivers a sound and light output which are noticeable in day or night conditions
- Produces 170 dB of sound output at 5 ft
- Produces 2.2 million candelas for 7.5 milliseconds

Pyrotechnic Chemical Grenades

Defense Technology® offers a large assortment of chemical grenades providing options for most any tactical situation. These high-volume pyrotechnic grenades utilize a standard M201A1 type fuze and deliver large plumes of smoke and/or agent.

FLAMELESS TRI-CHAMBER

- The design of this grenade allows the contents to burn within an internal can and disperse the agent safely with reduced risk of fire
- Designed primarily for tactical situations to detect and/or dislodge a barricaded subject
- It is not recommended to launch this grenade

OC CN CS SMOKE

HAN-BALL™

- Fast burning pyrotechnic grenade with a rubber ball exterior
- Delivers a high volume of agent in 15 seconds

OC CN CS SMOKE

TRIPLE-CHASER®

- Grenade separates into three sub-munitions to cover greater area and payload coverage
- Sub-munitions land approximately 20 ft. apart with an approximate burn time of 20-30 seconds

OC CN CS SMOKE

SPEDE-HEAT™

- Long-burning, continuous discharge grenade delivers a high-volume of smoke and agent
- Burn time approximately 30-40 seconds

OC CN CS

WHITE & COLORED SMOKE

- Smoke is discharged for approximately 30-40 seconds
- Ideal for signaling, communication, distraction and crowd control
- Smoke Colors: White, Black, Blue, Green, Red or Yellow
- Maximum HC Smoke Grenades are also available in Large- and Military-Style canisters

SMOKE

RIOT CONTROL

- Same long-burning, continuous discharge capabilities as the Spede-Heat™ grenade in a smaller canister
- Delivers a high-volume of smoke and agent
- Burn time approximately 30-40 seconds

OC CN CS

POCKET TACTICAL

- Though this device is slightly over 4" in length, it produces a smoke cloud so fast it appears to be an enveloping screen produced by a full size tactical grenade
- Burn time 20-40 seconds
- Smoke Colors: White, Blue, Green, Red or Yellow

Defense Technology® non-pyrotechnic chemical grenades provide heavy concentrations of payload that immediately contaminate the area and are non-flammable and safe for indoor usage.

AEROSOL OC VAPOR

- Delivers a very high concentration of agent in a powerful mist and requires very minimal decontamination
- Removing the subject from the affected area to fresh air resolves respiratory effects within minutes

OC INERT

INSTANTANEOUS BLAST

- Upon initiation of the detonator there is enough force to split at six machined grooves on the outside surface of the canister expelling the powder payload
- Well suited for affecting numerous subjects grouped within a contained area, using wind to the advantage

OC CN CS INERT

FLAMELESS EXPULSION

- This compact grenade features a CO² cartridge which utilizes the released pressure to expel the powder payload
- Most commonly used in tactical deployments by law enforcement or corrections and can affect a confined area of up to approximately 1,500 sq ft.

OC CN CS INERT

OC AEROSOL FOGGER

- Delivers a payload of 1.3 MC% in less than 15 seconds and is ideal for area denial in enclosed spaces such as attics or garages with minimal cleanup
- Available in 1 oz. and 6 oz. canisters

Pyrotechnic Chemical Projectiles

SKAT SHELL®

40MM & 37MM PYROTECHNIC CHEMICAL MUNITIONS

- Delivers four or five pyrotechnic sub-munitions
- Can be launched to 100 yards
- Force multiplier for mobile field force teams
- Affects a wider area at once

OC CN CS SMOKE

SPEDE-HEAT™ SHORT RANGE

37MM PYROTECHNIC CHEMICAL MUNITIONS

- Single dual-ported short range canister will travel 75 yards
- Available with either a chemical payload or Saf-Smoke™
- Allows for an effective and rapidly developed release line regardless of your position relative to the target group

OC CN CS SMOKE

SPEDE-HEAT™ LONG RANGE

40MM & 37MM PYROTECHNIC CHEMICAL MUNITIONS

- Single dual-ported long range canister will travel 150 yards
- 37mm available with either a chemical payload, colored or Saf-Smoke™
- 40mm only available with chemical payload or Saf-Smoke
- Allows for an effective and rapidly developed release line regardless of your position relative to the target group

OC CN CS SMOKE

GROUND MARKER

40MM PYROTECHNIC CHEMICAL MUNITIONS

- Delivers pyrotechnic smoke or irritant payload downrange at 100, 200 or 300 meters
- Available with a chemical payload, Saf-Smoke™ or colored smoke
- Applications for this product include crowd direction and control, marking and obscuration

- Two – grenade pouches

Military Munitions

The Defense Technology® brand continues to deliver reliable and effective tools to meet the challenges of asymmetrical warfare. From our military sponsored 40mm eXact iMPact™ round, to our smoke devices and 12-Gauge less lethal impact rounds, our products are manufactured to exacting specifications and quality standards. Defense Technology® is the leading provider of non-lethal munitions to the US Military, including 5 Type-classified products.

M1012/3021M
12-GAUGE NL POINT CONTROL CARTRIDGE

- Direct fire, short range 12-Gauge round
- Fin stabilized accuracy
- Specifically developed for routing, protecting chemical devices or targeting instigators

NSN# 1305-01-470-2405

M1013/3020M
12-GAUGE NL CROWD DISPERSAL CARTRIDGE

- Direct fire, short range 12-Gauge round
- Obtain compliance from a safe distance
- Specifically developed for routing, protecting chemical devices

NSN# 1305-01-470-2139

M1029/6095M
40MM NL CROWD DISPERSAL CARTRIDGE

- The custom 48 cal. rubber balls have increased weight and mass
- Direct/indirect fire munitions deliver massive pain compliance

NSN# 1310-01-475-0628

XM1116/3028M
12-GAUGE EXTENDED RANGE NL MARKING CARTRIDGE

- Accurately marks target at extended ranges
- Designed for locations with pre-set stand-off distances
- Drag Stabilized™ round delivers impressive energy at all effective ranges

NSN# 1305-01-536-1520

XM1091/6326M
40MM NL EXTENDED RANGE MARKING CARTRIDGE

- Direct fire munitions with payload options
- Unmatched accuracy out to 100 meters
- Crushing nose dampens blunt trauma while delivering payload

NSN# 1310-01-536-1536

M1030/3105M
12-GAUGE SHOTGUN BREACHING CARTRIDGE

- Disintegrates on contact
- Delivers enormous energy to locks/doors
- Safe to use at close distances
- Indoor/outdoor deployment

NSN# 1305-01-475-7440

M37/5846
DISPENSER, RIOT CONTROL AGENT, MID-SIZE

- Military version of a portable, high output aerosol system
- Accessory wands provide greater delivery options
- Refillable dispenser increases readiness in the field
- Indoor / outdoor deployable

NSN# 1040-01-463-0157

COLORED SMOKE GRENADES

- High volume pyrotechnic grenades
- Delivers large plumes of smoke
- Utilizes standard fuze
- Launching capabilities utilizing Defense Technology® launching cups
- Outdoor deployment

Colored Smoke Grenades

1064	Blue (NSN# 1330-01-541-4960)
1065	Green (NSN# 1330-01-541-4961)
1067	Red (NSN# 1330-01-541-6862)
1069	Yellow (NSN# 1330-01-541-4959)

XM104/1090M
STINGER® RUBBER BALL GRENADE

- An area deployment device
- Maximum stimulus overload via light, sound, and impact delivery

LESS LETHAL

MONADNOCK

The Monadnock® brand has a rich history of pioneering state-of-the-art American-made batons and training aids that has defined the way law enforcement professionals operate, train with and purchase batons for more than a half century. Our heritage and expertise focuses on our primary objective: providing the highest quality products to the men and women who depend on them every day.

Additionally, the Monadnock line includes the legendary Hiatt® brand of metal restraints, along with riot control suits and accessories in both hard and soft shell versions, offering a one-stop-shop for protective less lethal gear. There's a reason Monadnock products are the preferred choice of law enforcement professionals around the world – we simply build our products better.

AutoLock X3 HG Batons

The Monadnock® AutoLock® X3™ HG incorporates improvements found in the AutoLock X3™ series of batons, along with larger diameter shafts for those who prefer a baton with a stouter feel. Some of the features found in the X3 HG are an integrated nose guide for more efficient holstering and grip protection, improved positive locking design for reliability, a more stable feel with tightened tolerances and a corrosion-resistant finish and components. See our website for more information.

Made in the **USA**

AutoLock X3 Batons

The Monadnock® AutoLock® X3™ expandable baton improves its original positive locking design with notable improvements which include an updated cam and stainless steel ball bearing design which offers reliably consistent locking action. A more solid feel in the hand when performing or demonstrating techniques and a new smooth plastic nose on the baton handle for more efficient holstering and transition from the holster to the hand. New blackened electroless nickel finish improves corrosion resistance on the inside and outside of the baton. See our website for more information.

TIP OPTIONS

Available with either a Safety Tip®, 3xT Tactical Targeting Tip, or a Power Safety Tip® (shown here)

BLACK ELECTROLESS NICKEL FINISH

Improves corrosion resistance on the inside and outside of the baton

Made in the USA

SMOOTH PLASTIC NOSE

Featured on the baton handle for more efficient holstering and transition from the holster to the hand

IMPROVED POSITIVE LOCKING DESIGN

An updated cam and stainless steel ball bearing design offers reliably consistent locking action and more solid feel in the hand when performing or demonstrating techniques

END CAP OPTIONS

The patented AutoLock® baton features a push button in the end cap to easily close the baton after it has been deployed

Baton is shown with optional Wedge™ Baton Cap accessory

Hindi Baton Cap™ accessory also available

GRIP OPTIONS

Available with either Super Grip® (shown here) or firm Foam Grip

Expandable Straight Batons

SX & MX SERIES

- Uses a pin and spring to create a mechanical (or positive locking) mechanism that keeps baton open and makes it easy to close
- Baton locks in handle and may be locked in the extended open position with the push of a button
- Weight-forward shaft technology for increased “knock-down” power
- Aluminum polycarbonate composition impervious to rusting
- Model 2502: 24” closed and expands to 36” in the open position; can be used as a straight baton closed and a riot baton in the open position
- SX Baton models available in 1.25” diameter; MX Baton models available in 1” diameter

FRONT DRAW®

BATON HOLDER

- Designed with clip-on backs specifically for easy removal from a duty belt
- Made from durable polycarbonate, all holders feature a molded tension spring for baton security
- Choose from three models:
 - 360° with 8 locking position
 - 45° with 2 locking positions
 - 90° swivel providing the ability to lock at any preferred angle
- Fits 2.25" (58mm) belt widths

See website for full list of models

3774

FRONT

SIDE-HANDLE BATON HOLDER

- Designed with the Safariland® 774BL belt clip and retention clip for cross draw carry (right hand model will sit on left side of body and left hand model sits on right side of body)
- 90° swivel provides the ability to lock at any preferred angle
- Available for both PR-24® and Control Device batons in both left- and right-handed versions
- Unique retention device secures baton by side-handle for security
- Fits 2.25" belt widths

3035

BATON HOLDER

- Low-profile design
- Fits most 1 1/16" expandable batons
- User-adjustable design to customize baton retention

PATENTED

HINDI BATON CAP™

- Offers enhanced baton retention and maximum striking power during physical altercations while being safer to the suspect without limiting the use of force

WEDGE™ BATON CAP

- This tapered design offers a natural grip for maximum baton retention while in the field or performing techniques in a training environment

Monadnock batons feature a wide variety of grips, tips and finishes to allow you to choose the tool that best fits your duty requirements.

TIPS

Standard Steel Tip
Allows for opening the baton in a high-profile manner; may gain psychological advantage for officer over subject.

Safety Tip®
Reduces sharp edges; urethane covering allows passive drawing of the baton.

Power Safety Tip®
Engineered to put more weight forward to better balance the baton in the hand and improve kinetic energy transfer at the moment of impact. The larger tip surface may turn a subject's pockets inside out, reducing the risk of getting stuck with sharp objects.

3xT Tactical Training Targeting Tip
Featuring the *Power Safety Tip* that helps criminal justice professionals improve their striking skill because they can clearly see the track of the baton's tip during demonstrations, practice and/or in the street. Lime green only.

GRIPS

Foam Grip
Offers the highest tear strength and allows quick access from the Front Draw® Holder.

Super Grip®
The fluted surface texture provides excellent baton retention in and out of the holder.

Knurled Grip
The knurled grip enhances baton retention while performing strikes, blocks or jabbing techniques.

Grenade Grip
Offers a ridged handle design for a sure grip.

TRAINING BATONS ARE RECOMMENDED FOR USE WITH STATIC DYNAMIC BATON TRAINING

5006 UNIVERSAL TRAINING BAG 2 (UTB2)

- Features a high-tech Force Deceleration Core to dissipate training blows from knees, elbows, fists or training-baton strikes with ease and comfort
- Offers six hand positions to create multiple target positions around the human body, which develops target acquisition and application skills for more realism in training
- Easy to carry and store

5002 UNIVERSAL TRAINING BAG (UTB)

- Helps bridge the gap between static and dynamic movement in training
- Tactically used for baton physical encounter training:
 - Simulated training scenarios
 - Punching, kicking, elbowing, kneeing, etc.
 - Action-reaction response drills, including unarmed self-defense training and baton training
- Easy to carry and store

HARD SHELL RIOT CONTROL SYSTEM

The cost-effective, lightweight ExoTech® System offers hard-shell protection without sacrificing mobility and can be quickly donned or doffed with ease for rapid riot control response. Each piece of the ExoTech system fastens and adjusts quickly with durable polypropylene and elastic straps with hook and loop closures, allowing a custom fit for a wide variety of body types. The contour-molded polyethylene outer shell provides substantial protection from blunt force trauma.

- Laminated EVA foam & L2500 EVA foam
- Mesh inner lining

HUEX100 HYDRATION SYSTEM

- Includes bladder and carrier
- High-quality, odorless bladder
- 70 oz. capacity
- Features Bite Me™ revolutionary flow control valve for 360° activation and leak free operation
- Compatible with both ExoTech® and Centurion™ Riot Control Systems

KNP100 NECK PROTECTOR

- Offers heat, cut and abrasion-resistant protection for throat, neck and larynx
- Designed to be worn with Centurion™ and / or ExoTech® riot suits
- Comfortable stretch knit construction
- Made with Kevlar® fiber

KS19 PROTECTIVE SLEEVES

- Resists bites, scratches or cuts from sharp objects
- Design provides a moderate amount of heat, abrasion and cut protection
- Excellent for deploying flash bangs
- 2-ply, 7oz. Kevlar® fiber

Based on our ExoTech® line of riot suits, the MOLLE loop option allows for greater payload, allowing an officer to carry gear and accessories required for crowd management situations.

CUFF CUTTER**

- Can be used on any disposable restraint
- Pocket-sized for easy carry and storage
- Inexpensive and durable

TAKE CONTROL. AND KEEP IT.

Hiatt® handcuffs offer a variety of unique features designed to address the needs of today's law enforcement personnel. Our fast back-loading application allows an open cuff to be snapped back into place with a quick motion of the wrist and then reapplied without having to release the offender's hand. With 18 teeth, 3 independent retaining bars with 6 teeth on each, we make it extremely difficult to pick, while providing increased strength as the shackle engages the additional teeth. Finally, True Swing Technology ensures the swing arm is balanced and centered so it locks into the center of the shackle every time.

2010HD DOUBLE KEY HOLE CHAIN STYLE

Crafted from heavy-duty high carbon steel with reinforced steel swivels. Double key hole handcuffs make removing Hiatt handcuffs much easier. With key holes on both sides of the cuff, there is always one facing up for ease of access.

2010H

2010H / 2015H STANDARD CHAIN STYLE

Made from top quality steel, the chain style model features reinforced steel swivels for added strength and durability.

2010H – Nickel Plate Model

3103-H
LIGHTWEIGHT STELOY CHAIN HANDCUFF

This chain style handcuff offers reinforced steel swivels for added strength and durability. The 3103-H Steloy is 40% lighter and 17% larger than standard cuffs. Constructed from a combination of aluminum and steel this lightweight model offers high strength without the extra weight.

3154-H

3154-H
OVERSIZED STELOY HINGE HANDCUFF

Crafted from a combination of steel and aluminum known as Steloy, this lightweight hinge style cuff features solid hinges for reinforced holding power. This lightweight hinged model cuff is 40% lighter and 17% larger than a standard hinge handcuff.

SAFARILAND TRAINING ACADEMY

MONADNOCK® DEFENSIVE TACTICS SYSTEM

(MDTS) INSTRUCTOR COURSE

This powerful two-day course shows you how to use your hands, elbows, knees and feet for protection against an attack, especially in close quarter battles (CQB). It relies heavily on practical hands-on applications and is intended for first responders who want instruction in how to use their personal weapons for self-defense and subject-control, for escort and handcuffing.

Contact the Safariland Training Group for details to take or host this course.

ITY SYSTEMS

EOD PROTECTIVE EQUIPMENT & TOOLS - Med-Eng®
bomb suits and blast protective ensembles are trusted to save lives in over 100 countries and territories. The EOD® 10 sets a new gold standard for protection, mobility and operational capabilities. For tactical missions, the TAC 6 offers lighter weight and modular protection. The complete solutions we offer include personal blast sensors, Hook and Line (HAL®) and specialized EOD tools to maximize standoff.

SURVIVABIL

ITY SYSTEMS

ROBOTS, COOLING AND BLAST SEATS - The Avenger is a mid-sized bomb disposal robot with the operational capabilities of many larger sized robots. It is ideal for dealing with the increasing threat of Vehicle-Born IEDs and other challenging missions in urban centers. Med-Eng thermal management solutions include cooling systems for military vehicle occupants and their mission-critical electronics. These ruggedized systems can be customized for either heating or cooling, depending upon the mission. Med-Eng has fielded over 10,000 blast attenuation seats to protect military vehicle occupants from explosive events.

MOR SYSTEMS

From Ballistic Resistant Enclosure® (BRE®) units and Armored Fighting Positions (AFP) to lightweight composite armor for sea, air and land vehicles, PROTECH® offers a complete range of advanced product solutions for government facilities, military installations, private and public corporations, and original equipment manufacturers (OEM).

Armor Systems

GUARD BOOTHS

Standard and customized guard booths are available in sizes ranging from 4' x 4' to 10' x 20' or greater. Size, layout, and configuration variants offer solutions for each client's specific requirements.

- All levels of ballistic protection featuring ARMOR-LOK™
- Blast and fragmentation protection
- Multi-layer "no-spall" or "low-spall" transparent armor
- Ballistic- and blast-resistant gunports and window systems
- All-welded construction
- Chemical, biological, radiological and nuclear (CBRN) filtration systems
- Fully engineered HVAC systems
- High-performance coatings
- Electrical systems to meet any requirement
- Customized interiors
- Standard units or custom-designed to meet specifications
- Restrooms available
- Conduit-penetration protection
- Exterior lighting systems

Our exclusive ARMOR-LOK™ designs offer seamless 360° protection to all areas of each structure to include windows, doors and gunport systems with zero vulnerability

GUARD TOWERS

PROTECH's fully engineered bullet-resistant & (optional) blast-resistant guard towers are turn-key solutions for perimeter security applications at nuclear facilities, military installations, border crossings, chemical/petroleum plants, correctional facilities, and other industrial locations.

- Offering the same features as our BRE® units, these units are fixed on pedestals and tower systems for elevated security
- All levels of ballistic protection featuring ARMOR-LOK™
- Fully engineered, blast- and hurricane-rated tower designs
- 360° seamless protection
- Constructed with structural steel components
- Galvanized stair systems
- Prefabricated towers
- Optional catwalks and shooting stations
- Pre-cast foundations for ease of installation

CUSTOM ARMOR

Our complete manufacturing and fabrication capabilities enable us to work with end users, original equipment manufacturers (OEM), or prime contractors to design and develop advanced armor systems for virtually any application. From vehicle platforms to structural or shelter systems, from personnel to critical infrastructure protection, we are positioned well to meet a broad range of ballistic and blast requirements.

TRAILER ARMOR KITS

- With our in-house engineering PROTECH® offers the ability to rapidly produce lightweight, customized armor kits and components for unique applications

STEEL ARMOR COMPONENTS AND ASSEMBLIES

- Offering full MIG and TIG welded steel and/or aluminum armor assemblies, our technicians are AWS Certified for unlimited plate thickness
- Steels include: MIL-A-46177, MIL-A-46100, MIL-A-12560, AR500

COMPOSITE ARMOR SOLUTIONS

- From flat panel construction to unique 3-dimensional parts, our fabrication capabilities enable us to produce tooling in-house for most applications

Armor Systems

ARMOR FIGHTING POSITIONS

- Ballistic and fragmentation protection
- ARMOR-LOK™ design
- Lifting lugs for ease of installation
- Durable, textured finish with high-performance coatings
- Gunports

APPLICATIONS INCLUDE:

- Vital asset protection
- Check point security
- Perimeter protection
- Fixed fighting locations
- Supplemental guard house security
- Replacement of sandbags and concrete structures

The PROTECH® engineering and design team is ready to address all of your ballistic and security concerns. We will develop the system that works for you.

BOAT ARMOR

- Mission-specific modular kits to full OEM integration, the PROTECH® line of maritime armor offers systems for all types of protection requirements
- Broad portfolio of lightweight composite systems for ball and armor-piercing (AP) threats, addressing most small arms protection requirements
- Polyethylene systems affording least-weight penalty, which are buoyant and unaffected by freshwater, saltwater and UV rays
- Superior multi-hit, ballistic performance solutions
- Exterior coatings, which enable protection against the harshest of environments, for long-term serviceability

AIRCRAFT ARMOR

- PROTECH® Armor Systems line of land and air products include a wide array of ballistic, blast and fragmentation solutions
- Ballistic panels are easily installed and removed by front-line personnel. In most cases, no special tooling is required and armor systems can be easily transferred from one aircraft to another
- The availability of replacement panels eliminates the full replacement of the kit, thus reducing cost and aircraft downtime
- Polyurea protective coatings afford optimal durability, performance and slip resistance
- Excellent resistance to, and protection from, a variety of environmental and chemical situations

TRAINING

NG ACADEMY

SAFARILAND[™]
TRAINING ACADEMY

The Safariland Training Academy provides the most up-to-date and comprehensive training programs available anywhere in the world. Our newly enhanced and expanded programs build individual skills and provide solutions for criminal justice, military, corrections and privately licensed security personnel. What sets us apart is our team of highly-experienced instructors. Their real-world experiences in law enforcement provide practical and proven tactics to enhance the performance of your team.

Training Academy

BALLISTIC SHIELD INSTRUCTOR COURSE

This intensive three-day course provides instructors with the techniques and skills required to train their department's personnel in operating a ballistic shield. Students will learn drills, shooting techniques and tactics for the ballistic shield officer, while being required to make presentations, supervise range drills and develop course(s) of fire.

COUNTER AMBUSH TACTICS FOR OFFICER SURVIVAL OPERATOR COURSE

This training program consists of one day of classroom lecture and one day of practical exercises and scenario training, based on the real-world incidents that have injured and killed an ever increasing number of officers. Our instructors have extensive experience in the world of law enforcement, violent attacks on police officers and tactical responses to neutralize the threat.

CROWD MANAGEMENT AND MOBILE FIELD FORCE INSTRUCTOR COURSE

The skills presented in this class have been proven on the streets of America and internationally as part of a Department of Justice training program. Through this course, the line officer and supervisors learn how to maintain order when faced with gatherings from spontaneous acts of civil disobedience to large-scale riots. Students are very active during this five-day course as they progress through the proper use of tactics, equipment and less lethal munitions. Join the professionals who have prepared themselves for the threats found in the streets and the courtroom while they protect the rights of our citizens.

DEFENSIVE TACTICS INSTRUCTOR COURSE

This 5-day, highly dynamic course is like no other because it provides useful defensive and countermeasure skills in all three zones of defense, especially for close quarter battles (CQB) and effecting the arrest. It relies heavily on practical, hands-on applications and is intended for those who want instruction in the proper uses of both soft and hard empty-hand techniques, weapons retention, and use of straight batons (expandable or rigid) for self-defense. The course also provides subject-control for escort/takedown and handcuffing, handcuffing techniques for passive and active resistance individuals with chain and hinge cuffs, along with proper usage and application of aerosol OC.

Contact the Safariland Training Academy for details to take or host these courses.

800.347.1200 OPTION TRAINING**

LOW-LIGHT BUILDING SEARCHES INSTRUCTOR COURSE

This course is designed to give first-responding officers the knowledge, tools and tactics necessary to not only survive a low-light encounter during a building search, but to WIN it. The curriculum focuses on the different options available while working in low-light or no-light conditions.

PATROL RIFLE INSTRUCTOR COURSE

For most agencies, the patrol rifle is the long arm of choice and using it properly is vital. In many training environments, the emphasis is put on taking all the time needed, and pulling the trigger repeatedly. This two-day course will stress the need for speed relative to first shot readiness, and then shift to first shot effectiveness. The goal is to teach students to deploy with speed and to fire with precision.

RIOT SHIELD AND RIOT BATON INSTRUCTOR COURSE

This is a two-day, highly dynamic instructor level course that teaches officers proper usage of the Monadnock® riot shields and batons in Crowd Management/Mobile Field Force situations. Course content draws from our time-tested Monadnock Expandable Baton, Monadnock Defensive Tactics System and PROTECH® Tactical Shield Instructor programs. It relies heavily on tactics to protect officers from thrown objects and close-in crowds while utilizing the shield, baton protection for self-defense and subject control, as well as small unit tactics for control and arrest of subjects.

TACTICAL BREACHING INSTRUCTOR COURSE

This three-day, instructor-level course provides students with the necessary tools and tactics to deploy an objective and make forced entry through the means of a manual ram and/or pry bar, shotgun breaching rounds and flash-bang breaching.

ALSO AVAILABLE:

- Active Shooter Operator
- Barricade Solutions Operator
- Combat Medicine for Law Enforcement Operator
- Controlled Structure Searching Operator
- Emergency Response to an Armed Intruder
- Female Officer Survival Operator
- High-Risk Warrant Service Operator
- Hostage Rescue Operator
- Shoot-House Instructor
- Sniper Development Workshop
- Startle Response to an Ambush Operator
