RAMPART
WE EQUIP YOUR MISSION

**CANADA'S LEADING SUPPLIER
OF OPERATIONAL EQUIPMENT**

WE EQUIP YOUR MISSION

Rampart is Canada's leading single source provider of **operational equipment**. We offer access to the largest selection of products and brands, world-class subject matter experts, and industry-leading customer service.

EQUIPMENT SOLUTIONS

Our experts are committed to serving the end-user with the world's best products.

If you're unsure of what you need, our experts work with you to find the right solution.

CUSTOMER SERVICE

Our top priority is to provide the highest level of customer service.

Our team is dedicated to providing on time, on budget, on target solutions.

SUBJECT MATTER EXPERTISE

We have subject matter experts who can help and assist every step of the way.

From initial request, to post-contract delivery, warranty, repair and anything else that might come up.

WHO WE SERVE

- ✓ **Military** *All branches*
- ✓ **Police** *Federal, provincial and municipal*
- ✓ **Corrections**
- ✓ **Wildlife & Conservation**
- ✓ **Armed Government Services**
- ✓ **Public Safety & Security**
- ✓ **Wildland Fire**

PERFECTION

Rampart is proud to be the exclusive provider of GLOCK firearms to Military and Law Enforcement in Canada.

BUILT FOR
— THE —
MISSION®

MYSTERY RANCH builds the best load-bearing equipment in the world. We build for a different kind of customer, for folks who inspire us, and men and women with a job to do. We build with the best materials available and the most durable construction methods that exist so that you know our gear will support your mission whether it's on the front line, the fire line, the cleanest line or the steepest line.

We don't cut corners. Every pack that we build is designed with you in mind from function and fit to design and comfort. When every item that goes in your pack is a necessity, we want you to be efficient, effective, and most important, safe. We want to be sure that you can get it done, whatever your mission may be.

MYSTERY RANCH® – BUILT FOR THE MISSION®

CERTIFICATIONS

**Nation Fire Protection
Association**

UL

**Cal Fire
Approved**

In 2014 MYSTERY RANCH took the first step toward offering our customers NFPA certified products by building their quality management system and having it certified to ISO 9001. The next step was to provide third party, Underwriters Laboratories (UL®), with samples that comply the load-carrying design and performance requirements of NFPA 1977, 2016 Edition and pass the heat and thermal shrinkage resistance test. Fire packs are used to carry tools, food, water, and other items crucial to the safety of the user. Not only do the packs need to withstand a certain level of heat without failing, the buckles still need to be functional after exposure to ensure continued use in the field. Now, MYSTERY RANCH is continually expanding the array of wildland fire products that are NFPA certified, and we are proud to serve the brave men and women that risk their lives for our safety.

WARRANTY & REPAIRS

MYSTERY RANCH designs and manufactures packs for the job that needs to get done, supporting customers who rely on our packs to get home at the end of the day. Our Warranty guarantees everything we build against defects in materials and craftsmanship for the practical lifetime of the product. We will happily offer repair or replacement for issues with materials or craftsmanship. Damage due to normal wear and tear or misuse can be repaired for a reasonable charge.

MATERIALS & TECHNOLOGY

CORDURA®

500D and 1000D CORDURA®

Built of custom spec'd 500D and 1000D CORDURA® with Teflon® and PU coatings for maximum durability, UV, and weather protection.

YKK®

YKK® Zippers

Reliable #8 and #10 are used on the interior of the packs provide long-haul durability.

AQUAGUARD®

AQUAGUARD® Zippers

Exterior AQUAGUARD® YKK® #10 zippers with nickel-plated sliders are dustproof and provide exceptional weather-resistance and durability.

MYSTERY RANCH

Load carriage technology including the patented Futura yoke, Fire-specific frame, and pack harnessing. See more info on page 38.

SHIFT SYSTEM / ENGINE / IA

MYSTERY RANCH builds intelligent equipment that is initial-attack optimized and designed to meet the specific needs of Engine Companies, Helitack Crews, and Overhead.

SHIFT

SHIFT: \$185

SHIFT Cal Fire Spec: \$235

Cal Fire Spec model includes the HYDRO and HYDRAPAK® 3.1L OHY Hydration Reservoir - insulated all-black hose, bite valve hardware, and dust cover

- Weight:** 1.5 kg (3.4 lbs)
Vol: 150 cu-in storage pocket, 3-Fusee sheath & Fire Shelter compartment
Size: XS S M L XL

Light and fast, this is our most streamlined Fire Pack. NFPA categorizes it as PPE, we call it Load Carrying Equipment. It's both plus so much more: a pack prepared for that wind shift when your fire crests the hill and starts spotting a mile out. A simple and burly IA tool that works with the PLUS 900 and PLUS MEDIC for extended attack, single resource assignments, and mission-specific versatility.

PLUS 900

SHIFT MODULE

The Module that transforms your Shift into a Hotshot size extended attack pack.

PLUS 900 BAG only: \$140

*SHIFT not included

SHIFT PLUS 900: \$315

**SHIFT PLUS 900
Cal Fire Spec: \$370**

Our modular system is designed with open-ended capability to facilitate problem solving in the operational fire environment. Whether it's a 36 hour IA shift that takes you from the truck to the mountain top or a two week assignment out of region or county, the SHIFT PLUS 900 has your back. Replacing the Hot Spot + Crewbag and IA frame, our redesigned system shifts from simple, streamlined IA tool to large, full-featured pack for extended attack, single resource assignments, and mission-specific versatility.

Weight: Bag only - 1.5 kg (3.4 lbs)

Vol: Bag only - 15 L (891 cu-in)

Size: Bag only - OS

Shift Plus 900 & Shift Plus 900 Cal Fire XS S M L XL

PLUS MEDIC

SHIFT MODULE

The Module that transforms your Shift into a Wildland Medic Pack.

Zippered lid pocket gives easy access to personal gear and small items like headlamps, flagging, and batteries

270° zipper opening fully splays open the bag for main compartment access

Modified front Stick It with zippered compartment for personal/sustainment gear and zippered administrative pocket

Wing pockets hold up to three fuel bottles, three water bottles (40oz Hydroflask®, FSS bottle) or one 64oz Hydroflask® growler per side

3M™ reflective

Wing pockets low-cut front enables firefighter to reach fuel and water bottles while wearing pack

External, full-length zippered docs sleeve

MYSTERY RANCH Fire accessory lids compatible

Velcro® area for removable medical patches

Triple-Spade system and web is color coded and securely attaches PLUS MEDIC to SHIFT

PLUS MEDIC BAG only: \$315

*Shift not included

SHIFT PLUS MEDIC: \$499

Two small and two large clamshell-style internal, removable pockets with vinyl windows that Velcro® in place have color coded-handles and removable label strips for quick recognition

Internal hydration sleeve

Two 1000 ml IV pockets with clear vinyl windows

Full-length, internal zippered sleeve for neck brace

Internal shear pocket with underlying area for surgical gloves

- Weight:** Bag only - 2.7 kg (5.9 lbs)
- Vol:** Bag only - 23 L (1404 cu-in)
- Size:** Bag only - OS
Shift Plus Medic XS S M L XL

A scaled down version of our larger medical pack (the FEMP), the PLUS MEDIC works with our Shift System allowing you to carry medical kit when you need it. The Plus Medic was designed to allow quick access to your organized medical supplies. The main compartment opens all the way so you can get to the removable pockets, but this pack also features dedicated pockets for hydration, notebooks, shears and gloves.

HOT SPEED

HOT SPEED Cal Fire Spec: \$225

Weight: 1.5 kg (3.2 lbs)

Vol: 8 L (458 cu-in)

Size: XS S M L XL

Stripped to the essentials then rebuilt as PPE with Health and Safety as top priorities, the HOT SPEED is all-inclusive and IA ready. Designed to meet the specific needs of Engine Companies, Helitack Crews, and Overhead, this sleek pack drops the hydration reservoir into the lumbar, maximizing ventilation while freeing valuable upper-back real estate for hosepacks, saw packs, and bladder bags.

HOSE PACK

HOSE PACK: \$150

Weight: 1.6 kg (3.5 lbs)
Vol: Two 122 m (400 ft) 1.5" Hoses
Dims: 19.5" x 20" x 5.5" (49.5x51x14cm)

Hoselays are hard work no matter what the fuel type or region. We designed our HOSE PACK to carry a range of hoselay styles, be it a Smokey or Travis, a Lake George, an internally packed variation on a Gasner or Jarbo, or simple rolls. We've fit up to 400' of 1.5" hose into this shell, while built-in bolsters provide airflow and stability.

EVIL TWIN HOSE PACK

EVIL TWIN HOSE PACK: \$200

Weight: 2.2 kg (4.9 lbs)
Vol: 35 L (2 stacks of 100 ft 1.5" hose)
Dims: 29" x 17" x 13" (51x51x15cm)

Solving multiple problems inherent in deploying a progressive hoselay, the EVIL TWIN HOSE PACK is designed around a patented cable-release system that pops the lid to drop hardware and lateral, without needing a second person or removing the pack. Oriented upside-down, accordion-loaded hose pays smoothly out the pack's leather-lined mouth. Primarily designed for an internally packed Gansner-type deployment system, the pack also works well for Travis, Smokey, Cleveland, and other hoselay methods.

THOMAS FIRE

In 2017, California experienced what became (at the time) the largest wildland fire in the state's history, the Thomas Fire. Striking in its ferocity and driven by prolonged Santa Ana winds, the Thomas Fire set responders back on their heels and disrupted the lives of hundreds of thousands of residents in the fire's vicinity. Just over a month after ignition, while the fire was still yet uncontained, seasonal rains came through the fire area and triggered a series of debris flows that killed 21 people (two people remain missing). While wildland fires are part of life in Southern California, what is remarkable about this fire, is it started and rapidly grew to 281,893 acres in the month of December.

MYSTERY RANCH has teamed up with The American Wildfire Experience, a small nonprofit, and GIS company Gage Carto, to create a web-based digital story exploring the Thomas Fire from ignition through recovery. One part exploration of how we, as a collective, experience wildland fires, and one part data-driven examination of how the Thomas Fire became one of the largest wildland fires in California's...

CONTINUED....

history, this project aims to help capture and share the story of this unique fire using a blend of oral history and digital storytelling techniques.

Through crowdsourced content, oral history interviews, and interactive maps, this project will shine the light on first responders, wildland firefighters, community members, and the Thomas Fire itself – conveying and showcasing some of the stories and experiences that came out of this historic event.

MYSTERY RANCH is a proud supporter of The American Wildfire Experience (AWE), which was started by brand ambassador Bethany Hannah in 2017 to house her successful wildland fire oral history and digital storytelling project, The Smokey Generation. Focused on collecting, preserving, and sharing the stories and histories of wildland firefighters, The Smokey Generation celebrates the community and culture of the wildland fire industry while giving voice to wildland fire itself. The creation of AWE enables Bethany to continue to grow and expand The Smokey Generation's wildland fire oral history and digital storytelling efforts while also launching new projects and initiatives, like this Thomas Fire project, aimed at illuminating the experience, role, and impact of wildland fire in our communities.

HOTSHOT / HANDCREW

Haul handle on upper yoke can also double as location for hanging fiber tape and flagging

Fully adjustable Fire Yoke telescopes to fit any torso length

Daisy chains over shoulder pads for hanging accessories and other goods

Included Hotshot Lid provides 300 cu-in of storage, featuring low profile admin pocket with pen slots

All body-facing components built with spacer mesh materials for moisture transfer and body heat dispersion

Wing pockets hold up to three fuel bottles, three water bottles (40oz Hydroflask®, FSS bottle) or one 64oz Hydroflask® growler per side

Internal stretch-woven hydration sleeve with porting

Wing pockets low-cut front enables firefighter to reach fuel and water bottles while wearing pack

Fuseses fully zip away for rotor-wing crew shuttles

3M™ reflective

Zip-front, panel load access to main compartment allows versatility, visibility for organization, and additional internal pocketry

External detail pocket gives easy access to small items like headlamps, flagging, and batteries

Fire Belt system features 2" re-direct webbing and PALS web for MOLLE accessories

Low-riding lumbar design for efficiency during ground-level work

Lower lid-attach system secures two fuel bottles, giving a carry option where H2O contamination is a concern

Included Hot Shelter Case Molle can be set up for right or left-handed deployment and slants away from the body to prevent shelter slap and chafe

HOTSHOT: \$299

Interior

HOTSHOT Cal Fire Spec: \$325

Cal Fire Spec model includes HYDRAPAK® 3.1L OHY Hydration Reservoir - insulated all-black hose, bite valve hardware, and dust cover

Weight: 2.8 kg (6.2 lbs)

Vol: 21 L (1269 cu-in)

Size: XS S M L XL XXL

Over a long season on a Hotshot crew, engine, or helicopter, your fire pack becomes the one thing you can truly call your own. That's why we redesigned our flagship HOT 3 and introduced the HOTSHOT. Adding key tailoring touches, features that improve both comfort and function, and improved framing—because every cubic inch of a fire pack is gold to the firefighter wearing it.

HOTSHOT TL

Haul handle on upper yoke can also double as location for hanging fiber tape and flagging

Included Hotshot Lid provides 300 cu-in of storage, featuring low profile admin pocket with pen slots

  **HOTSHOT TL: \$299**

Top-loading shroud

HOTSHOT TL Cal Fire Spec: \$325

Cal Fire Spec model includes HYDRAPAK® 3.1L OHY Hydration Reservoir – insulated all-black hose, bite valve hardware, and dust cover

- Weight:** 2.5 kg (5.6 lbs)
- Vol:** 23 L (1400 cu-in)
- Size:** XS S M L XL XXL

Simplified brother of the HOTSHOT, our HOTSHOT TL (Top Load) is the next generation of the trusted HOT TOP—the gas-station on your back, your pillow for that 0400 dirtnap, the brother that carries what gets you to the next shift safe, strong, and healthy. It's your home away from home, and built to last.

CARGO

Internal organization and versatile carry options make the MYSTERY RANCH Fire Cargo line an essential piece of the traveling fire fighter. Built-in and compressible laundry bag allows for quarantine of dirties and organization over a long few weeks living in a tent. Backpack straps allow for packing out of spike camp and other long distance carriage.

Photo: Kari Greer

FLIGHT MONSTER

\$210

Weight: 2.3 kg (5 lbs)
Vol: 107 L (6548 cu-in)
Dims: 31" x 17" x 14"

Designed to comply with commercial airline regulations of 62 maximum linear inches for checked baggage and to meet the travel needs of Hotshots and all other module types, the FLIGHT MONSTER is a high volume duffel bag with low-profile compression. Multiple carry options stow for streamlined transport, whether by road or air, and the bag itself rolls to stow small when not in use. Best of all, a segregated, compressible laundry bag keeps your dirties quarantined.

MONSTER

\$190

Weight: 1.9 kg (4.2 lbs)
Vol: 58 L (3564 cu-in)
Dims: 27" x 15" x 11"

This is gear that needs to fly, spike out, and pack-out; load on the mule-train, ride four deep in the truck, strap on a Type 6, shove into a compartment on the bus. When you're clocking a thousand-plus overtime hours in six months, living out of a bag can get disorganized, dirty—even confusing—the MYSTERY RANCH MONSTER is the solution.

MEDICAL

On the fireline in a medical emergency, every second counts. That's why the MYSTERY RANCH medic specific bags were designed around quick access, organization, and comfort.

FEMP

Weight: 3.8 kg (8.4 lbs)

Vol: 30 L (1831 cu-in)

Size: XS S M L XL

For the dedicated Fireline Paramedic or Fireline EMT, the FEMP was designed to allow quick access to all of your medical equipment, with enough additional space for your personal gear and admin goodies. The main compartment splays open, allowing full access to the removable pockets so that you can work out of the pack. Every square inch of this pack was designed with function in mind—dedicated pockets for hydration, documents, shears, gloves, etc. The Big Lid 10 is the icing on the cake, with 10 liters of space for all your extras.

PLUS MEDIC

SHIFT MODULE

The Module that transforms your Shift into a Wildland Medic Pack.

Zippered lid pocket gives easy access to personal gear and small items like headlamps, flagging, and batteries

270° zipper opening fully splays open the bag for main compartment access

Internal hydration sleeve

Modified front Stick It with zippered compartment for personal/sustainment gear and zippered administrative pocket

Wing pockets hold up to three fuel bottles, three water bottles (40oz Hydroflask®, FSS bottle) or one 64oz Hydroflask® growler per side

3M™ reflective

Wing pockets low-cut front enables firefighter to reach fuel and water bottles while wearing pack

External, full-length zippered docs sleeve

MYSTERY RANCH Fire accessory lids compatible

Velcro® area for removable medical patches

Triple-Spade system and web is color coded and securely attaches PLUS MEDIC to SHIFT

PLUS MEDIC BAG only: \$315

*Shift not included

SHIFT PLUS MEDIC: \$499

Two small and two large clamshell-style internal, removable pockets with vinyl windows that Velcro® in place have color coded-handles and removable label strips for quick recognition

Internal hydration sleeve

Two 1000 ml IV pockets with clear vinyl windows

Full-length, internal zippered sleeve for neck brace

Internal shear pocket with underlying area for surgical gloves

- Weight:** Bag only - 2.7 kg (5.9 lbs)
- Vol:** Bag only - 23 L (1404 cu-in)
- Size:** Bag only - OS
Shift Plus Medic XS S M L XL

A scaled down version of our larger medical pack (the FEMP), the PLUS MEDIC works with our Shift System allowing you to carry medical kit when you need it. The PLUS MEDIC was designed to allow quick access to your organized medical supplies. The main compartment opens all the way so you can get to the removable pockets, but this pack also features dedicated pockets for hydration, notebooks, shears, and gloves.

MED LID

MED LID shown on Hotshot pack, replacing the standard lid.

\$99

- Weight:** 0.6 kg (1.4 lbs)
- Vol:** 7.3 L (450 cu-in)
- Dims:** 10" x 12" x 6.75"

This one took time. After being poked, prodded, and pushed for a few years by our Hotshot crews (one in particular—we won't name names!), we undertook a thorough and patient field test and feedback process, placing a prototype with the medics of 5 different IHCs from diverse regions for a full fire season. We're proud of the result—continuous, need-based, end-user focused innovation—all to solve problems faced by the guys and gals on the Line.

ACCESSORIES

MYSTERY RANCH fire accessories were designed to help customize your fire pack whether quick access to essentials, extra volume, additional organization, or hydration solutions.

FEATURES & SIZING

Many of the MYSTERY RANCH fire packs have these features. The Fire-specific yoke, featuring our patented Futura system, telescopically adjusts to any torso length and promotes ventilation. They also feature a re-direct waist belt system that secures in a natural, forward pull direction that requires less effort to tighten and with patented features and construction methods, the waist belt cants and conforms over the hips to effectively transfer and distribute the weight eliminating slippage down over the hips.

1. **Fire Yoke** - Specifically designed 2" narrower than our standard Futura yoke to maximize ventilation without compromising load carriage comfort.
2. **External fuel bottle carriage** - This option allows for separation of fuel and water (Hotshot & Hotshot TL packs).
3. **Haul loop handle** - Also doubles as hardhat hanger or a location for additional tape/ flagging rolls.
4. **Admin pocket** - For notebooks, IAP, pens/pencils, maps, IRPG.
5. **Fusees zip away** - Secure storage of fusees for rotor-wing transport.
6. **Wing pockets** - Wing pockets hold up to three fuel bottles, three water bottles (40oz Hydroflask®, FSS bottle) or one 64oz Hydroflask® growler per side.
7. **Angled pack bottom** - Keeps fire shelter off the butt and thighs while compression eliminates shelter motion.
8. **Low-cut tailoring** - Wing pockets low-cut front enables firefighter to reach fuel and water bottles while wearing pack.
9. **MOLLE accessory attachment**
10. **Incorporated hydration** - 100+ oz. on CAL FIRE spec models.
11. **S-curve shoulder pads** - Ergonomically shaped to the torso and keep straps out of armpits while working.
12. **Wicking material** - On all body contact faces - transports heat and moisture away from the body.
