

Widely Attended Gathering (WAG) Information

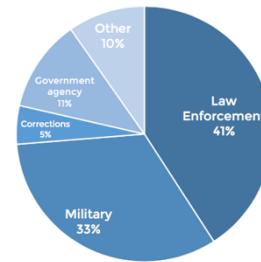

Event: Rampart Range Day and Expo
Date: MAY 31ST 2022
Location: Stittsville Shooting Range
Ottawa, Ontario, Canada

There is no charge for this event. Attendee access to the event is limited to Military, Law Enforcement, Corrections Personnel, Bylaw, Wildlife Protection and other armed agencies. Contact your designated agency ethics official as to whether or not this event is permitted under your agency's widely attended gathering (WAG) policies. [Update: See our COVID-19 event protocols on page 2.](#)

To assist your approving manager/ethics official in determining if this event qualifies as a WAG, we have provided answers to several key questions.

1. How many anticipated attendees and from which sectors are they?

More than 2,500 invitations will be distributed to individuals from military, police (federal, provincial, local) corrections, wildlife & conservation, armed government services, public safety and security. We anticipate approx. 700 attendees with approximately 41% from Law Enforcement (federal, provincial, municipal), 33% from Canadian military, 11% from Government agencies, 5% from Corrections and 10% other groups such as EMS and Fire.

2. Is this event in the interest of the agency? Will it further agency operations and programs?

For over a decade, the purpose of Rampart Range Day has been to showcase and provide hands-on experience to end users, purchasers and program managers in the tactical community. Rampart Range Day differentiates itself from other similar events in Canada by focusing on several key elements:

Exclusivity: Our event is only open to active serving first responders and Military who operate in a tactical capacity.

Quality training and demonstrations: We offer open area training and workshops lead by our vendors and Rampart subject matter experts. Attendees get a unique opportunity to learn more about the practical application of the products while getting hands-on experience on the range or in an open demonstration area.

Active firing ranges: Many of our vendors will be running range bays to explain and let attendees try their products first-hand.

Diverse product line representation: For 2022, we are expecting over 70 vendors from around the world. Range Day brings in high-end and innovative brands not just from North America, but from Europe and beyond. Our event brings in these leading-edge specialty brands in an effort to provide unique exposures to our attendees.

3. What are some examples of demonstrations that have taken place?

Aimpoint: CompM5b for supersonic and subsonic loads on a 300 blackout platform.

Safariland: Soft and hard body armour. This demonstration will allow the observer to see and measure the ballistic energy transfer and depth of penetration associated with the discharge of most commonly encountered ammunition types.

Defense Technology: Less-lethal munitions and 40mm launcher. On-range demonstrations of the capabilities of their less lethal munitions line to qualified spectators.

ASP: Demonstrating their Integrated training system: legally-proven techniques for officer protection and subject control while integrating duty gear products they know.

GLOCK: Overview and hands-on opportunity with GLOCK GEN5 pistols

Colt Canada: Demonstrating the Colt Canada C20 Semi-Automatic Sniper Rifle

Magtech: Demonstration and opportunity to try several caliber and bullet types
And much more!

4. What measures are you taking to protect staff and attendees from COVID-19?

Rampart will comply with all COVID-19 requirements as defined by the government of Ontario. These protocols may be modified depending on government requirements at the time of the event. These are some of the protocols in place to ensure safety of all involved.

1. Hand sanitizer and masks will be available on-site and stationed throughout the event for those who wish to use them.
 2. Catered lunch is individually packaged.
 3. Disinfectant wipes will be placed at the shooting range to wipe down equipment.
 4. Washroom will be disinfected at regular intervals.
 5. One-way flow of traffic inside tent and at ranges.
 6. Dedicated event staff tasked with ensuring protocols are being followed.
5. Where can I see a more details about the event?
