

FAST™

COMP SERIES

Developed as a solution for the DOD's standard issue M68 CCO, the FAST™ Comp Series is a drop-in replacement for all full-size Aimpoint® Comp series and PRO optics. It comes standard with a 2 cross bolt rail clamp, but is compatible with the FAST™ QD (Quick Detach) Lever. It can be paired with any FAST™ FTC (Flip-to-Center) magnifier mount.

FAST™ is a series of optic mounting solutions that provides end users with a quicker sight picture than standard height mounts. FAST™ mounts position most optics at a 2.26" optical centerline from the rail, which allows for more rapid visual processing of the battlefield by ensuring an ergonomically correct heads-up posture. Further, they provide faster and easier dot/reticle acquisition while wearing night vision goggles, protective masks, plate carriers and other gear.
