

SPARK™

MULTI-FUNCTION EMERGENCY STROBE

SPARK™ is a tiny, disposable marking light designed to provide rapid visibility of personnel or objects. A completely sealed unit, SPARK™ is waterproof for function in a multitude of austere environments. It attaches to surfaces with a hook and loop backing. When paired with the SPARK™ CAGE, it can weave onto webbing or snap onto metal surfaces with magnets. Pressing the center of the silicone housing, SPARK™ will cycle through its output functions. The constant feature is good for low light training while the blink output acts as an emergency strobe beacon.

SPARK CAGE
SOLD SEPARATELY

INTERFACE	OUTPUT	WEIGHT	MATERIAL
HOOK AND LOOP / MAGNETIC (WITH CAGE)	LED	OZ: 0.75 G: 21.3	SILICONE
