

HELMET

P100R (Mounted Police)

OUTER SHELL

Multi-layer flame-resistant aramid fabric with special selfextinguishing lacquer, integrated push-button fasteners for direct adaptation of a respirator mask or a chin-/mouth guard. Penetration protection according to EN 1384:2023 (helmet for equestrian activities) TÜV Rheinland.

INNER SHELL

Special EPS inner shell for optimised shock absorption properties according to EN 1384:2023 (helmet for equestrian activities) TÜV Rheinland. Flame-retardant lining of Nomex® fabric, anti-bacterial, removable and suitable for cleaning with excellent comfort. Adjustable via wheel at the back of the helmet shell.

RETENTION SYSTEM

4-point retention system, chinstrap made of Nomex® fabric with an integrated neck strap, flame-retardant microlock fasteners, and an emergency release (survival-buckle).

VISOR

Clear, polycarbonate Dual-Lens-Visor, EN 167 certified (TÜV Rheinland).
Anti-Fog coated inside, scratch resistant on the outside. Tear-off-Visor sold separately.

NECK PROTECTION

Penetration-resistant
PU covering

ACCESSORIES

Transparent chin-/mouth guard including emergency release system, respiratory masks AVON HM50 and MH50P, Mandible Communication, Mandible Light, communication systems, double lens visor (anti fog), individual padding set, helmet carry bag.

The P100R is based on the requirements of the Technical Guidelines for modular systems - protective helmet, communication system, respirator mask - from the Police Technical Institute of the German Police Academy, dated February 2011. Fulfills EN 1384:2023 (helmet for equestrian activities) TÜV Rheinland.
