

Ghost X

Tactical MPLS Headlamp

Dual-Fuel

Ghost X is powered by either a CR123 or an AA battery (alkaline or lithium)

Programmability

The programmable LED interface lets you customize which of the RED, GREEN, or Blue colors you want to pair with the always available white light.

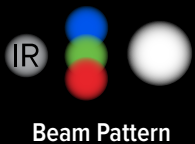

Ghost Mode™

A mechanical switch with a single purpose: absolute light discipline. Activate it, and the light responds only in infrared modes

Powerful IR Output

Ghost X delivers powerful 940nm IR output, with adjustable radiometric power ranging from 10 to 320 mWr.

PERFORMANCE

Modes	Runtime	Beam Pattern	Output
SPOT HIGH	1.7 h		300 lm
SPOT LOW	29 h		20 lm
RED HIGH	10 h		9 lm
RED LOW	27 h		9 lm
RED STROBE	105 h		4 lm
GREEN HIGH	25 h		9 lm
GREEN LOW	62 h		4 lm
GREEN STROBE	173 h		9 lm
BLUE HIGH	3.8 h		5 lm
BLUE LOW	15 h		3 lm
BLUE STROBE	51 h		5 lm
IR HIGH	2.5 h		320 mWr
IR LOW	87 h		10 mWr
IR STROBE	61 h		320 mWr

DISTANCE (m) 0 9 27 102
